REVIEW

OF THE

SEA-BORNE TRADE

OF THE

BOMBAY PRESIDENCY

For the Year 1899-1900.

PORT OF BOMBAY.

The total value of the sea-borne trade of the Port of Bombay for the year 1899-1900 amoun[ted to] Rs. 1,03,30,2[7,391] [as compared with] 1,00,55,61,906 in 1898-99, showing an improvement of Rs. nearly [3] crores or [about 3 per cent.] [This] se is on the whole satisfactory, as it is a continuation of the improv[ement] [in spite of] the c[ontinued] presence of the plague and the commencemen[t] [of the famine.] [The figures for] the last ten years are stated below.

Year.	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	1898-99.	1899-1900.
Value Rs.	1,04,82,46,286	98,88,12,016	1,05,43,72,488	1,10,50,98,258	99,75,10,022	1,05,35,54,410	94,17,54,775	94,39,33,446	1,00,55,61,906	1,03,30,27,391

There are four divisions of the trade, the value of each of which and its percentage to the aggregate trade was for the two years, 1898-99 and 1899-1900, as follows :—

	1898-99.	Percentage of Total Trade.	1899-1900.	Percentage of Total Trade.	Increase or Decrease in 1899-1900.
	Rs.		Rs.		Rs.
Foreign External Ports	80,70,12,862	80·26	78,55,24,658	76·04	—2,14,88,204
Foreign Indian Ports	6,29,78,410	6·26	6,86,52,479	6·65	+56,74,069
British Ports in other Presidencies ...	11,13,63,706	11·07	15,02,52,788	14·54	+3,88,89,082
British Ports within the Presidency ...	2,42,06,928	2·41	2,85,97,466	2·77	+43,90,538

The trade with Foreign External Ports, *i.e.*, with countries beyond the Continent of India, is classed as Foreign Trade and that with Foreign Indian Ports and with British Ports in other Presidencies, as well as within the Presidency, as Coasting Trade.

The diminution of over 2 crores of rupees in the trade with Foreign External Ports is due to the famine which has adversely affected the area not only of the Bombay Presidency but of the greater part of India.

FOREIGN TRADE.

The following table shows the value of the trade for each year during the past ten years. Government transactions are shown in this statement, but they will not be referred to in the subsequent remarks or tables :—

The aggregate value of the private trade of the Port of Bombay (Imports and Exports) shows a ... off of Rs. 4,10,95,107 or nearly 7 per cent. The total is moreover below the average of the ...ding five years by more than 4 per cent., the diminution being caused entirely by the falling off of ...orts, as the imports show an improvement.

The value of merchandise imported amounted t... Rs. 26,26 ...3,516 in 1898-99, which is 3·91 per cent. better than last yea... of the preceding five years. The items m... (35 lakhs), cotton goods (73 lakhs), grain and pulse (61 lakhs), and jewellery (55 lakhs). The heavy imports in grain and pulse and in raw cotton are an indication of the complete failure of the crops, and the total increase does not, of course, indicate any condition of prosperity. The following articles show large decreases: dyeing and tanning materials (15 lakhs), ivory, unmanufactured (10 lakhs), machinery and mill-work (45 lakhs), metals (55 lakhs), oils (31 lakhs), silk, raw (15 lakhs), and sugar, refined (43 lakhs). These decreases generally reflect the depression caused by famine, though other causes also affected the import of mill machinery.

Exchange with the United Kingdom averaged 16*d.* against 15·94*d.* in 1898-99, the variation during the year being less than one farthing. Exchange with Hongkong and Shanghai fluctuated throughout the year, but closed at almost the same figure at the end as at the beginning. The fluctuations were not great, Rs. 140 per 100 dollars and Rs. 191 per 100 taels being the lowest points touched and Rs. 147 and Rs. 201, the highest, the average rate being about Rs. 144¼ and Rs. 196, respectively. Exchange with Japan was also fairly steady, Rs. 147 and Rs. 151¼ per 100 yen being the two limits of variation and the average rate Rs. 149¾ per 100 yen.

Exports. Exports are divided into two classes:—(1) Exports of Foreign Merchandise, and (2) Exports of Indian Produce and Manufactures.

Foreign Merchandise.—The value of the exports of foreign merchandise amounted to Rs. 2,46,92,594 against Rs. 2,53,35,785 in 1898-99, showing a decrease of Rs. 6,43,191 or 2½ per cent. This trade has been gradually declining for some years and the diminution was intensified in the present year by famine.

Indian Produce.—The value of Indian produce exported amounted to Rs. 27,73,54,134 against Rs. 32,40,44,086, showing a decline of Rs. 4,66,89,952 or more than 14 per cent., mainly attributable to decreased shipments of raw cotton and grain and pulse (chiefly wheat) due to causes already referred to.

The fluctuations under most of the leading articles of import and export will be explained more fully further on.

The imports of treasure were valued at Rs. 14,63,92,785 against Rs. 13,75,45,908 and the exports at Rs. 7,44,43,593 against Rs. 6,36,83,567 in 1898-99. The fluctuations in the value of gold and silver imported and exported during the two years 1898-99 and 1899-1900 are shown below.

	Imports.		Exports.	
	Gold.	Silver.	Gold.	Silver.
	Rs.	Rs.	Rs.	Rs.
1898-99 ...	6,35,88,936	7,39,56,472	2,33,55,960	4,03,27,607
1899-1900 ...	7,26,90,708	7,37,02,077	2,00,77,462	5,43,66,131

The causes of increase and decrease in respect to treasure are separately dealt with further on.

The principal features of the trade of the year under review are noticed below.

Animals, living—*Horses.*—Though 398 more horses were imported, their value was nearly 1½ lakhs less than in the previous year. About two-thirds, or Rs. 90,000 of the decrease, was in the value of English horses, showing the effect of plague and famine on the purses of Indian Princes and others. The number of horses imported from Persia increased by 774, showing a revival after the dislocation caused by plague; but the imports from Arabia fell off by one-third. There was also a slight increase in the number of Australian horses brought in, but there were few highly valuable animals among them, and the Queensland horses were of a lower average value than those from New South Wales, which they replaced to some extent.

Apparel—The rise of nearly 3½ lakhs (excluding boots and shoes) indicates that the great decrease in 1896-97 is being steadily made up. The imports from the United Kingdom show an increase of a little over a lakh; Austria-Hungary and Germany between them a rise of four lakhs, chiefly owing to a large increase in the importation of Turkish caps caused by the expectation of a rise of prices owing to a combination among the manufacturers in Austria-Hungary which monopolises the trade. There was a decrease of about Rs. 39,000 from Russia and of over 2 lakhs from Japan. The heavy drop in Japanese goods was partly due to direct shipments to places previously supplied through India and partly to a rise in prices owing to a large exportation of Japanese

goods being sent to the Paris Exhibition, which also affected the exports from France to the extent of about half a lakh.

Boots and Shoes—Show an increase of about a lakh. The bulk of this trade is with Great Britain, and shows a rise of Rs. 91,000. The preference for cheap English boots and shoes over the native-made article is increasing in all parts of the Presidency.

Candles.—There has been an increase of Rs. 62,559, mainly due to the recovery (of Rs. 44,630) in the imports from Belgium. A large portion of the candles received in Bombay are exported to the Persian Gulf ports.

Carriages.—The trade in these shows an advance of Rs. 67,459 in spite of a drop of about a lakh divided between the United States and Belgium. The trade from the United States, which showed such a rapid increase in the previous year, has fallen by nearly 50 per cent.—a decrease due to the over-importation of bicycles and the check in the demand for them. The increase of over 1½ lakhs in the imports from Great Britain is to a great extent due to the importation of second-hand English carriages which find a ready sale in this country. The total value, *viz.* Rs. 12,26,987, is the largest during the last five years, the figures for which are—

	Rs.
1895-96	5,29,707
1896-97	10,01,643
1897-98	10,18,256
1898-99	11,59,528
1899-1900	12,26,987

Chemicals.—The imports under the principal sub-heads were as follows:—

	1898-99.	1899-1900.	Increase or Decrease in 1899-1900.
	Rs.	Rs.	Rs.
Alum	1,51,444	1,26,366	—25,078

Others	10,77,926	10,51,359	—26,567
Total ...	13,95,030	13,90,516	—4,514

There has been a further drop of Rs. 4,514, and this shows that the heavy stocks held have not yet been exhausted. The imports of disinfectants, which were very large in the earlier years of the plague, have almost ceased. Sulphuric acid, however, has doubled itself, the increase this year being Rs. 79,573. The monopoly which one firm had in this article ceased last year, with the result that competition introduced a quantity in excess of requirements.

Clocks and Watches.—The imports for the last five years were—

The imports show an increase of about a lakh. They were larger than any of the previous four years, and show the demand for cheap and often worthless watches, mostly of Swiss manufacture. The state of the trade, in which an increase would not be expected in a year of famine, depends largely on the stocks held at the places of manufacture.

Coal.—The following were the foreign imports for five years, contrasted with those from Calcutta:—

There has been an advance of about 11¾ lakhs, made up of about 6¾ lakhs of English, and 6¼ lakhs of Japanese coal, while the imports of the Australian coal decreased by a lakh. There is a steady demand for English coal, notwithstanding its price, while Japanese coal is chiefly imported owing to facilities of freight and its cheapness. It is principally used in cotton mills, the agents of which are interested in the Japanese Shipping Companies. The decrease of 11 lakhs in the value of Indian coal imported was due to want of transport facilities and not to any diminution of the output of Indian mines, which continues to increase, and would be larger if more rolling stock was available. The B. B. & C. I. Railway has to a large extent adopted the use of Indian coal, following the example of the G. I. P. Railway, and this coal is now used in most of the Indian mills.

The following returns of the production of Indian coal are taken from the Railway Administration Report :—

1899-1900 ... ... — ...	7,349	2,16,001

The drop of 57 per cent. is explained by the heavy stocks of last year and to the fall in prices.

Cotton—Raw.—The quantities imported during the past five years from various sources were as under.

The exceptional rise of 140,753 cwt., of the value of Rs. 34,55,222, in imports of cotton indicates how severe the failure of the Indian crop was and to what extent, in spite of the high prices ruling in Europe, the Indian millswere forced to purchase foreign cotton in order to continue working and to meet contracts. The imports from the United Kingdom have enormously increased, the total being 97,645 cwt., or more than the combined total of the four previous years. The gradual expansion in the imports of American cotton from England is due, in addition to the exceptional character of this year, to the facilities of transport and financing which the English trade enjoys. One special feature of the import was the large quantity of Egyptian cotton taken—to the value of Rs. 10,17,329—an advance of about 8½ lakhs over last year. This preference for the long-stapled article seems to be due, firstly, to the high prices of English cotton piece-goods of the *medium* and *high* qualities which made the prices of similar goods locally produced more remunerative ; and secondly, as the famine reduced the capacity of the Indian rayat to buy the coarse cloths generally produced here, such of the mills as could produce finer yarn and a better quality of cloth, occupied themselves in so doing.

The increase of over a lakh and quarter, in a year like the present, shows the efforts made by some of the local mills to weave from the finer English yarns and to thus compete with English piece-goods. Stocks were also particularly low at the end of the previous year.

Cotton Manufactures—The following table shows the figures under the several sub-heads for the two years 1898-99 and 1899-1900 :—

There was an increase of over 72 lakhs under this head, which is satisfactory, as the prices of cotton piece-goods have been firm in England throughout the year under report.

The imports of *grey*, *white* and *coloured* goods for the last ten years are contrasted below.

The *greys* show a decrease of 2,465,619 yards in quantity, though the value has increased over last year by about 8¾ lakhs. This is partly due to high prices ruling at home and partly to India preferring to take better classes of goods. There is a drop of about 2 lakhs, or about 30 per cent., in grey T cloths, which is accounted for by direct shipments to the Persian ports. Jaconets and madapollams were overdone last year, and therefore show a small decline. All other descriptions show an increase in values.

The *whites* show a satisfactory increase of a little over 14 lakhs. During the year there was a good demand for low and medium white goods, especially for Nainsooks, which alone show a rise of over 5½ lakhs.

Coloured Goods.—The increase of nearly 44 lakhs, including printed handkerchiefs, makes the year one of the best during the last decade. The only year which showed larger imports was 1893-94. Printers and dyers in England and on the Continent have been cheapening processes of manufacture and instead of using the old rich Turkey red colour are using cheap alizarine and other dyes. The result has been that they have been and are ousting native-dyed and printed goods. Of the total imports of cotton piece-goods, which amount to a little over 7½ crores, the imports from the United Kingdom are about 7 crores or 96 per cent., and of the increase of 66¾ lakhs for this year nearly 61½ lakhs are from Great Britain. It will thus be seen that only 4 per cent. of the total imports are left to be distributed over the other exporting countries.

The following figures taken from the statement issued by the Bombay Chamber of Commerce show the stock of cotton piece-goods and yarn in the present and past years :—

It will be observed that the stocks of cotton piece-goods in the present year are a little over double of those of last year, but they are not heavy compared with the years 1897 and 1898, which had on the same date 62,861 and 70,971 packages, respectively.

There is a very heavy decrease of nearly 15½ lakhs under this heading. The drop in the *alizarine and aniline* dyes is about Rs. 15,40,000 or 30 per cent. This is due partly to the heavy imports of last year, but mainly to famine affecting the whole country and entirely stopping the dyeing of yarn for the hand-loom weavers as well as the dyeing of cloth in the local mills. Two large importers of lump alizarine have had to stop their shipments since November last owing to their goods not coming up to the standard strength. *Cochineal* has also dropped to the extent of Rs. 68,525. *Saffron*, though it has decreased in quantity, shows an improvement in value to the

extent of Rs. 32,297. This is explained partly by high prices and partly by the absence of imports of what is called "*Grass Saffron*", the lowest quality that is used in dyeing. The increase is mainly due to imports from France, through which country the Spanish production is chiefly exported.

Earthen-ware and Porcelain.—This article shows an increase of over Rs. 90,000. Hongkong and Japan are again showing an improvement, the latter to the extent of Rs. 23,878, while Belgium has declined by Rs. 23,437 for reasons explained under glass-ware.

Total ...	.....	31,27,083	.....	34,33,504	.....	+3,06,421

The total increase is Rs. 3,06,421, which is spread over all classes, nearly two-thirds or Rs. 1,91,197 being due to "*Other Ware.*"

The prices of *sheet and plate* still continue to be high, and though the total imports were smaller in quantity, the value was, therefore, higher than in the preceding year.

Other Ware.—An increase of Rs. 1,15,891, which is about 60 per cent. of the total increase under this head, comes from Japan. Several Indian merchants have established themselves in Japan and are actively pushing the trade in glass-ware and earthen-ware with that country to the prejudice of both the Chinese and Belgian manufacturers. The latter are said to have been particularly dilatory in executing Indian orders, and importers have gladly taken advantage of the increased facilities from Japan, the imports from which also threaten to affect the large share which Austria now possesses of the trade.

Grain and Pulse.—To the large sum of about 61 lakhs of rupees, which is the increase over last year's imports of grain and pulse, has to be added the sum of about Rs. 2,63,00,000, the value of the increased imports of rice from Burma, which gives the phenomenal total of about Rs. 3,24,00,000 as the value of the increased imports of food-grains into Bombay in the year under review. The great quantity of food-grains imported testifies to the severity and widespread nature of the famine.

Gums and Resins.—These show an advance of Rs. 1,32,372 or about 19 per cent., which appears to point to an active resumption of the old trade in these articles.

Hardware and Cutlery.—The value of the trade under this head, including sewing machines, with the chief sources of supply during the last decade, was as follows:—

	United Kingdom.	Austria-Hungary.	Belgium.	Germany.	United States.
	Rs.	Rs.	Rs.	Rs.	Rs.
1890-91	42,51,336	2,83,207	2,31,100	3,52,725	25,457
1891-92	39,75,937	2,81,431	3,72,746	3,91,596	37,366

1893-94	40,51,622	3,61,769	5,36,940	6,61,111	27,699
1894-95	44,27,984	3,57,762	3,18,286	5,63,644	53,532
1895-96	41,43,181	5,06,731	2,92,548	8,26,874	48,609
1896-97	42,65,348	6,13,609	3,10,670	9,11,777	66,521
1897-98	32,80,605	4,05,448	3,74,154	4,80,198	50,349
1898-99	35,90,331	2,85,727	3,27,484	5,04,361	92,212
1899-1900	39,07,754	6,34,551	3,44,584	6,80,067	1,04,070

There was a rise in imports from every country from which these goods are received. The increase from the United Kingdom was about 3½ lakhs and from Austria-Hungary about 3¼ lakhs, the imports from the latter country having been exceptionally low in the previous year. A marked feature of the imports during the year was the exceptionally large quantity of tools and other implements such as hoes and pick-axes imported for the requirements of the extensive relief works opened throughout the country. The imports of sewing machines improved with an increase of 1,049 in number and Rs. 42,597 in value.

Hides and Skins.—There is a drop of Rs. 1,90,133 made up of Rs. 1,64,049 in the *raw* and Rs. 31,548 in the *tanned* skins, the former due to the large number of raw hides locally available owing to the famine and the latter to the condition of the mill industry in which they are used.

Ivory.—The value of the imports of unmanufactured ivory during the last five years was as follows:—

1895-96.	1896-97.	1897-98.	1898-99.	1899-1900.
Rs.	Rs.	Rs.	Rs.	Rs.
30,52,249	21,06,596	21,41,618	20,83,507	10,48,022

There was a heavy drop of Rs. 10,35,485 which reduces the imports for the year to about one-third the figure for 1895-96. This was almost entirely due to the famine and the consequent cessation of marriages and other festivities among people who wear ivory ornaments. The largest decreases are from the United Kingdom, Rs. 5,32,153, and from Zanzibar, Rs. 2,27,761. Next comes Austria-Hungary with a drop of Rs. 1,11,067.

Jewellery.—Of the extraordinary increase of Rs. 55,30,511, unset pearls alone account for a trifle less than Rs. 54,00,000, the remainder Rs. 1,30,511, being in gold and silver plate, &c. A very great impetus was given to the demand for pearls by the anticipation of large realisations at the Paris Exhibition and in addition to the imports of Rs. 91,97,000 received during the year, a much larger quantity of fine pearl jewellery left India before the end of 1899.

Leather and Leather Manufactures.—There has been a moderate increase of about half a lákh in leather "*Unwrought*" and *Saddlery and harness*, but a very heavy drop of about Rs. 1,39,428 in *leather—other sorts*. This latter chiefly includes belting used in driving machinery and the fall in imports is explained by the present condition of the mill industry, as well as by the necessity of working off old stocks.

Liquors:—

	1898-99.		1899-1900.		Increase or Decrease in 1899-1900.	
	Gals.	Rs.	Gals.	Rs	Gals.	Rs.

Total ...	1,559 863	50,82,498	1,696,854	51,20,696	+136,991	+31,198

There has been a further large advance in the receipts of *ale, beer and porter*, amounting to Rs. 1,12,562. Of this increase 94 per cent. is due to imports from Great Britain. The English brewers seem to be cutting their German rivals altogether out of the trade especially in meeting the wants of the soldiers. There was a drop of Rs. 58,123 in *spirits*. The drop in *brandy* was Rs. 1,35,029, in *whisky* Rs. 49,102 (in spite of a rise in German whisky of Rs. 24,144) and in other descriptions Rs. 49,440. Thus the total decrease under this head would have been Rs. 2,33,571 if it had not been counteracted by a rise of Rs. 6,490 in *gin*, Rs. 40,808 in *spirits used in drugs and medicines in a proportion of 20 per cent. and upwards*, and Rs. 1,28,150 in *perfumed spirits*. This result is chiefly ascribable to large stocks held over from previous years. Brandy has particularly suffered, and this is said to be due largely to the adulterations practised on it. It has now been passed by its chief rival whisky, but it is unsatisfactory to find that the increase in the latter is confined to the cheap German spirit. *Champagne* held its own, and *claret* increased considerably, but *port* fell off slightly, and *sherry* considerably, while "*Other Sorts*" decreased by Rs. 26,760, the imports of the latter depending largely on stocks held. Altogether there was a decrease of Rs. 23,241 in *wines*.

The rise in *perfumed spirits* is mainly due to large imports of Eau-de-Cologne, the shipments of which were delayed in consequence of litigation in the High Court between the largest importing firm and other persons over the monopoly of the goods.

Machinery and Millwork:—

	Rs.
1890-91	93,39,064
1891-92	89,44,210

1898-99	1,60,76,521
1899-1900	1,15,41,912

There was a decrease of over 45 lakhs this year; but in considering this fact, it must be remembered that the imports last year were the heaviest on record, while the mill industry, already in difficulties, was further distressed by the failure of the cotton crops. Even so, the imports exceeded the average of the previous ten years, and unless there is a speedy settlement of the difficulties in China, and a general recovery of the yarn trade, further decreases in the import of machinery must be anticipated. Except for the comparatively trifling amount of Rs. 1,25,000, the whole imports came from the United Kingdom.

Matches.—The distribution of the sources of supply during the last five years has been as follows:—

	1895-96.	1896-97.	1897-98.	1898-99.	1899-1900.
	Rs.	Rs.	Rs.	Rs.	Rs.

Japan	7,26,890	5,31,175	9,98,271	7,36,328	7,41,044

There was thus very little fluctuation in the supply from the various countries, and the small total decrease of Rs. 32,077 was due to the large stocks still held.

Metals.—The values and quantities of the trade under this head during each of the last two years were as follows:—

	1898-99.		1899-1900.		Increase or Decrease in 1899-1900.

The decline of 55 lakhs of rupees in the whole trade was a very heavy one, and, though to a great extent the high prices prevailing in Europe were responsible for it, yet the decline would not have been so great but for the widespread distress throughout the Presidency.

Copper alone has suffered to the extent of about 44 lakhs. The imports from Japan—which of late years had been assuming the lead in *unwrought copper-tiles, ingots, cakes and bricks*—fell by 98 per cent. this year. It is, of course, well known that one of the first results of a severe famine is the inability of the poorer classes to buy new copper pots, and the necessity they are under to sell their old ones. The high prices of copper are, however, leading the people at all times to buy brass and other mixed metals in place of it. A very heavy drop occurred in the imports from the United Kingdom, amounting to about 38¼ lakhs or 86 per cent.

The imports of *iron and steel* have experienced a further decline of over 10 lakhs, chiefly due to the continued high prices. Every country of export shows a diminution except the United States. The figures for *iron and steel* are classified as follows:—

The slight improvement in *iron angle, bolt and rod and iron bar* last year has been followed by a heavy decline of Rs. 9,38,655, of which Rs. 9,03,982 or 96 per cent. has occurred in the share of Belgium. The United Kingdom showed improvement in these two descriptions to the extent of Rs. 2,12,266. *Pipes* and *tubes* show an improvement of over 2 lakhs, of which about 60 per cent. is due to imports from Great Britain. *Steel bar* shows a heavy drop in imports from Belgium, which are about 6 lakhs below last year's. There is an improvement of over 3½ lakhs in imports from the United Kingdom, and the United States follows with an increase of Rs. 63,291. The latter country has also improved in *bridge-work* to the extent of Rs. 1,63,318. There has been a drop of about 3 lakhs in *hoop steel*, the whole of which has occurred in the imports from Great Britain. It is due to the cotton famine and the stagnation in the mill trade, as this article is principally used in the baling of cotton.

Oils, mineral, other sorts, and *vegetable oils* between them show an increase of about 2 lakhs, but there has been a serious decrease of over 33½ lakhs in *kerosine* oil. The loss in value would have been still greater but for the rise in prices, both of Russian and American oil, which ruled throughout the year from 20 to 30 per cent. higher than in the previous year. The primary cause for the diminution has been the scarcity which instantly affected the demand from all parts of the country. The imports from Sumatra have ceased altogether.

The figures for *kerosine* for the last decade are as follows :—

Paper and Pasteboard.—There has been an advance of about Rs. 89,000 under this head. The improvement in the imports of *writing paper* and *paper—other kinds* from Great Britain, which was noticed last year, continued, though there was a larger increase in the Austrian imports of the same descriptions. *Printing paper* has declined to the extent of Rs. 43,286.

Provisions.—There was a satisfactory increase of Rs. 12,28,473, or about 21 per cent., over the total imports of the last year. *Fish-maws and Shark-fins* improved by over Rs. 10,000, the imports from Muscat and Persia being heavy. Muscat and Persia have sent dry salted fish to the extent of Rs. 2,10,023, an advance of over Rs. 1,04,000, and the largest import during the last five years. The imports of *dates* have been the largest during the last five years, except 1895-96, an exceptionally full year. There was a very plentiful crop in Asiatic Turkey, and the imports from Bassorah show a phenomenal advance of Rs. 7,89,854. Persia contributed to the extent of Rs. 66,495. The imports from Muscat, however, fell heavily, the decline being Rs. 2,34,223. In *fruits and vegetables, dried* or *preserved, other sorts*, Persia takes the lead in *almonds with* and *without* shell, contributing 3½ lakhs of each kind. France comes next with Rs. 2,00,000, mostly in almonds *with* shell. In *provisions—other sorts* there has been a rise of Rs. 2,41,579, shared by every exporting country, about 40 per cent. of the total increase being from Great Britain.

Railway Materials.—The value of the trade in the several items included under this head was during the last five years as follows :—

Total ...	77,60,350	1,20,30,947	1,06,20,903	1,62,40,184	1,54,11,981

There has thus been a drop of a little over 8½ lakhs, and it will be seen that the decrease has been heaviest in the *materials for construction*. This is due to the completion of the branch lines and extensions lately in progress. There has, however, been a rise of about 6¾ lakhs in *carriages* and *trucks* and of about 8½ lakhs in *locomotives*. This has been caused by the increasing demand for rolling stock which the famine with its heavy movements of grain and fodder has stimulated instead of checking and to the replacement of locomotives which is now general.

Silk—Raw.—There has been a smart drop of about 15 lakhs or a little over 24 per cent. under this head. This drop is almost entirely due to reduced shipments from Hongkong and the Treaty Ports. The price of raw silk went up during the year by about 40 to 50 per cent. owing to a short crop and the large demand from Europe caused particularly by the Paris Exhibition.

Silk—Manufactures were imported in the two years as follows—

The imports from Hongkong, Treaty Ports, Japan, France and other European countries during the last five years were as follows:—

	China—Hongkong.	Treaty Ports.	Japan.	France, Italy, and other European Countries.
	Rs.	Rs.	Rs.	Rs.

1899-1900...	15,97,518	12,17,146	6,03,625	40,71,566

Silk piece-goods have declined to the extent of Rs. 12,67,732 or about 23 per cent. Of the total decline the share of China is Rs. 7,36,718 or 21 per cent. This is due to the high prices ruling consequent on the direct European demand. The Paris Exhibition has caused a decline in the shipments from France amounting to over 1½ lakhs. The decline in Japanese goods to the extent of over 3½ lakhs is partly due to the high prices and partly to the diversion of the trade to Rangoon, which port was formerly supplied from Bombay. The war in South Africa has stopped the demand from that quarter and has thus diminished the imports. In *mixed goods* such as satins, velvets, &c., there has been a small advance of Rs. 13,939. There was a decline, as already explained, of Rs. 1,20,000 from France, but an advance of Rs. 1,23,587 in the cheap German products.

Other sorts show an advance of Rs. 7,35,396. The warp trade with the United Kingdom shows a satisfactory advance of Rs. 5,58,357, and imports from Italy have also increased to the extent of Rs. 1,35,715. The beginning made last year in warp imports from Russia has been more than maintained and showed an advance of Rs. 82,328 over last year. The Russian warp is gradually taking the place of China and Japan raw silk in the manufacture of silk piece-goods in the Presidency whenever there is any difficulty due to high prices or short shipments in obtaining the latter.

There was a very good crop of *betel-nut* on the Malabár Coast, the imports from which alone came to 4¾ lakhs. Other Indian ports supplied the article to the extent of 18½ lakhs, so that the enquiry for the inferior article produced in Zanzibar and the Straits Settlements fell off and a drop of Rs. 17,569 in foreign imports was thus caused. The drop of over a lakh in *cardamoms* is explained by a good Indian crop which sent to Bombay shipments worth about 6 lakhs and the imports from Ceylon were thus adversely affected. *Cloves* show an increase of about 1¼ lakhs. The bulk of these imports comes from Zanzibar and a large portion is re-exported, the figure of re-exports this year being over 2¾ lakhs. The imports of *ginger* have almost doubled, showing a rise of Rs. 34,291. It is exclusively imported from Japan.

Stationery.—This heading shows a rise of Rs. 71,599. 31 per cent. of the rise and 70 per cent. of the total imports belonged to the United Kingdom which now competes successfully with the cheap products of Germany.

Sugar, Refined.—The receipts from the principal sources of supply in the past five years have been as follows :—

The imports of *refined sugar* show a heavy decline of Rs. 43,31,404, but whereas the *beet* sugar of Austro-Hungary has declined by about 19½ lakhs, the *cane* sugar of Mauritius has suffered to the extent of about 26¾ lakhs. The crop in Mauritius in the previous year was a very good one, and the shipments were in consequence unusually heavy. This partly accounts for the decrease. It yet remains to be seen how far Mauritius is benefitting or otherwise from the imposition of countervailing duties on bounty-fed sugar. The bounties in Austria are believed to have been reduced to the extent of about 15 per cent. in the past year. This indicates an unusually large outturn, and as facilities are now being given for the reduction of the countervailing duty with the reduction of the bounty, Austrian beet sugar may possibly recover to some extent from the heavy decline it has experienced.

The only country which shows an improvement to any great extent in this year of diminishing imports is China, shipments therefrom being better by over 4½ lakhs. The protection afforded to cane sugar by recent legislation has induced Java to compete in the Indian market. The shipments of Javanese sugar though heavy to Calcutta have been very trifling to Bombay, but it is not unlikely that, as the processes of manufacture in Java improve, Java sugar will prove a formidable rival to Mauritius.

Tea.—The following table shows the quantity and value of the imports from the chief sources of supply :—

The trade in this article is steadily decreasing every year. *China green* and the greater part of *Ceylon tea* are imported to be re-exported to Russia and Persia through Asiatic Turkey. The Russian fiscal policy has diverted this trade into other channels, with the result that the imports to this port are dwindling year by year. The only advance to be noted this year is in imports from the Treaty Ports, which comes to about a lakh. Imports of Indian tea from Calcutta show a large falling off of Rs. 5,41,338. The greater part of these imports are re-exported to Persia and Asiatic Turkey and the export trade suffers in proportion to the diminution in imports.

Umbrellas.—There has been an advance of over 3½ lakhs in this branch of the trade, nearly the whole of which, *viz.* Rs. 3,23,529, has been monopolized by the United Kingdom. English umbrellas, always first in quality, can now stand the competition of other countries in cheapness, and are gradually superseding them in the market. Japanese umbrellas have acquired a reputation for shoddiness, which is severely affecting their sale.

It may be mentioned that, besides the large quantity of umbrellas imported from Great Britain, there is an annually increasing quantity of "umbrella cloth" imported for the repair of old umbrellas or for fitting on to new frame-works. There has been some improvement in Chinese cane umbrellas this year. One reason assigned for the increase of English imports this year is that Calcutta could not, owing to the plague in 1898-99, supply the up-country markets with its usual quantity and those markets had to draw upon Bombay for their supplies. The unusual demand exhausted the stocks in Bombay and large orders were placed for goods which have arrived during the current year.

Wood.—The following table shows the imports of teak from the chief sources of supply :—

		1898-99.		1899-1900.	
		Quantity.	Value.	Quantity.	Value.

The imports from Siam have risen by Rs. 1,68,909, while shipments from Burma, which are here shown for comparison, have fallen off to the extent of over 6 lakhs. The drop in Siamese imports experienced last year was to some extent recovered, and similarly there was a natural reaction from the very large imports from Burma in the past year. The cessation of railway extension, however, and the depression caused by scarcity, have limited the demand. There were no imports of timber from the Straits Settlements during the year. The drop in Burma timber is also partly due to the high rate of freight ruling which has materially affected the trade.

Wool.—There has been a drop in value of about Rs. 56,522, though the quantity has increased slightly by 2,109 lbs. The chief source from which wool is received at this port is Persia, and drought has there seriously affected the best breeds of sheep. The other wool received is of inferior quality to Persian wool. The exports this year show a further drop in spite of the high prices ruling in Europe.

Woollen Goods.—The following table shows the trade in each of the main items included under this head :—

The steady progress towards recovery of the ground lost in 1897-98 in woollen manufactures is a satisfactory feature of this year. The trade in woollen goods shows a rise of over 13½ lakhs or over 27 per cent. on last year and 76 per cent. over the year 1897-98. All the sub-heads show a rise except *braids*. *Piece-goods* show an advance of nearly 10½ lakhs and *shawls* and *hosiery* which is included in "*Other sorts*", between them add to this year's improvement by about Rs. 1,40,000. Of the total increase of Rs. 13,54,535, the United Kingdom participates to the extent of Rs. 8,60,105 or 63 **per cent.** The rise is the more remarkable as prices have been steadily high throughout the year.

Articles imported by the Post.—The increase of Rs. 3,50,431 shows that the *parcel post* system continues to grow in popularity.

As has been observed in previous reports this trade has been falling off since 1896. Bombay and Karáchi were at one time the receivers and distributors of nearly the whole trade between Europe and the Persian, Arabian and East African coasts. Direct communication has, however, been established and is increasing between many of these places, with a consequent effect on the trade of Bombay. The plague in Bombay prevented the full use of the town as an intermediary port, while drought and scarcity along the Persian coast for the last two years caused a further diminution of shipments to those quarters. The year is, consequently, the worst in the decade, but it may be noted that the decline, 6½ lakhs or 2½ per cent., was proportionately much less than the decreases in the past four years.

The chief countries to which re-exports are made and the value of the total trade recorded in the case of each during the two years 1898-99 and 1899-1900 were as follows :—

	1898-99.	1899-1900.
	Rs.	Rs.
United Kingdom	25,82,409	25,43,733
Mozambique	9,45,026	10,38,397
Zanzibar	20,51,333	18,99,854
Aden	13,57,158	14,10,314
Arabia	24,83,073	24,00,584
China	13,55,822	14,12,206
Persia	83,79,151	72,89,428
Straits Settlements	23,17,746	22,07,994
Turkey in Asia	14,24,134	14,63,993

Re-exports to *United Kingdom* show a falling off of Rs. 38,676. The heavy drop in unmanufactured ivory of more than 1¾ lakhs was to some extent counterbalanced by a rise of about a ¼ lakh in gums and resins and by small advances in other articles.

Mozambique shows a rise of nearly a lakh of rupees, chiefly made up of cotton piece-goods and refined sugar.

Zanzibar shows a heavy drop of Rs. 1,41,237 in cotton piece-goods and about Rs. 36,000 in sugar.

Aden shows better results by about ½ a lakh, the increase of Rs. 1,82,937 in English cotton twist and cotton piece-goods being satisfactory. The exports of refined sugar fell off however by about a lakh.

China shows a slight advance over last year. The increases were in cloves about 1 lakh, gums ¼ lakh, and dried fruit ¾ lakh, while there was a drop of more than 1½ lakhs in fish-maws and shark-fins.

Persia shows a heavy decline of 11 lakhs in all, 3 lakhs in cotton manufactures, about 5 lakhs in sugar and over 5¾ lakhs in tea. This serious decline, though partially due to direct shipments, is also to be accounted for by the bad seasons and scarcity in Persia, which has reduced the demand for luxuries and comforts. The decline in cotton piece-goods and tea is, however, principally due to the competition of Russian printed goods in the Persian market, and to the quantity of tea carried direct from China and Ceylon in Russian subsidized ships.

Straits Settlements.—There is a fall of over a lakh of rupees here, which would have been much larger but for a rise in apparel, hardware, provisions, &c. The exports of cotton piece-goods alone fell by about Rs. 2,28,000.

The Arabian coast ports show a decrease of over Rs. 82,000, which calls for no particular remarks.

The principal articles of the trade and their values were—

	1898-99.	1899-1900.

Tea	14,58,610	8,45,091
Woollen Goods	2,35,964	3,71,497

Amongst the articles which show a considerable rise are cotton twist and yarn about 1¾ lakhs, gums and resins 2¼ lakhs, metals about 3 lakhs, spices over 1 lakh, woollen manufactures 1¼ lakhs. The increase in gums and resins is spread over all the importing countries, Belgium taking the largest quantity, *viz.* Rs. 85,567, Germany coming next with Rs. 44,761. The advance in metals is entirely made up of old iron re-exported for re-manufacture. The bulk of it, Rs. 3,61,260, went to Italy.

Apparel.—Clothing, properly so-called, shows an advance of over Rs. 62,000, the rise being distributed over all the importing countries except Zanzibar. This increase is, however, counterbalanced by the drop in *boots and shoes*, which has caused a loss in the total exports under this heading. The exports to Egypt, the principal purchaser of this commodity, decreased by Rs. 1,90,000, but there is no doubt that a large portion of the exceptionally large quantity (over a lakh as compared with Rs. 17,000 last year) sent to Aden, was intended ultimately for Egypt.

Coffee.—There has been a further drop of over Rs. 35,000 this year. This is partly due to drought but chiefly to the cheapness of the berry produced elsewhere.

Cotton—Raw.—The distribution of this staple for the two financial years was as follows :—

The heavy decline of over a crore and a quarter is of course mainly due to the failure of the cotton crop. Much of the amount exported had remained over from the previous year's crop. Exports to European countries show a very heavy drop except in the case of the Spanish ports, which show an advance of over a lakh. Shipments to China have increased by Rs. 11,41,708 and to Japan by Rs. 79,38,157. The exports to Japan were the largest since 1890-91, and Japan and China between them monopolize 67 per cent. of the whole cotton export trade of the year.

There has been an increase of 21,559,426 lbs. and about 35 lakhs of rupees, that is to say, about 10 per cent. in quantity and 6 per cent. in value; a large portion of the increase consisted of speculative exports to China.

The only other ports which show an improvement over last year are Aden by over 2 lakhs and Japan by Rs. 27,500. The ports of all other countries show a diminution, believed to be due to the large stocks on hand.

Cotton—Manufactures.—The total value of the trade this year is Rs. 68,36,650 against Rs. 60,87,552 last year, showing an advance of Rs. 7,49,098 or 12 per cent. The most important item is *grey piece-goods*, the details of the exports of which are shown below for the last five years :—

The advance of 12 per cent. is satisfactory, both because it breaks the continuity of decline since 1895-96 and because the rise is distributed over most of the centres which draw upon India for *grey piece-goods*. The advance of about 3½ lakhs in the trade to China, or 60 per cent. of the total increase, proves that that country can take grey piece-goods from India as she does from the United Kingdom if the goods are made from higher counts. It may be remarked that this year's imports of grey piece-goods from the United Kingdom to China were very heavy; but notwithstanding this China has taken 5 lakhs worth of goods from India. The other places which show large rises are Aden with about 1½ lakhs, Turkey in Asia with over a lakh, Mozambique with over Rs. 80,000, Arabia with about Rs. 44,000, Straits Settlements with about Rs. 42,000. The heavy drops are in Zanzibar, Rs. 80,000, and Persia, Rs. 41,000.

Drugs, Medicines, and Narcotics :—

Opium.—Though there has been a drop of 1,295 cwt. or 1,036½ chests this year, the exports show a rise of over 24 lakhs in value. The native drug in China is said to have fallen into disrepute through adulteration, while the native crop is reported to have suffered to a considerable extent. The general prosperity in China also induced the Chinese to pay higher prices for the Indian opium which they much prefer when they can afford it. It is very probable that a larger quantity would have been exported, but the dealers in Málwa opium, in anticipation of the short crop of this year, have been reluctant to make larger shipments as they expected to get higher prices later.

Tobacco.—The only port which takes this article is Aden, which has not been able to exhaust its last year's stocks; hence the heavy decline of Rs. 3,82,956.

Dyeing and Tanning Materials.—The details of the trade under this head are shown below.

The exports this year show an advance of over 3½ lakhs.

Indigo.—Shows an advance of over ¾ lakh. The advance in shipments to the United Kingdom was about 2½ lakhs. The Japanese demand has been again resumed, and the exports to that

country have gone up this year by over 2 lakhs. Persia, the export to which is always a fluctuating item, shows a very heavy drop of about Rs. 3,35,000.

Myrabolams.—There has been a rise of about 2½ lakhs in the exports of this article. There was a good demand for this article last year and high prices were paid. In consequence a larger quantity than was required by the demand was sent here, and when prices fell this year, a large amount was exported to Europe, and especially to the United Kingdom. When the price of myrabolam is down, they are largely used for tanning purposes in England. When these are dear another article—valonia—is mixed with them to lessen their cost.

Turmeric.—Last year the price of *Turmeric* rose from 25 to 30 per cent., and consequently large quantities were attracted to Bombay. This article is subject to mildew and cannot be kept in stock for a long period and there was, therefore, an increase in exports.

Grain and Pulse.—The comparative details for two years are given below,

As might have been expected from the acute distress that has overtaken the whole Presidency and those districts outside the Presidency which contribute towards the trade from Bombay, the exports this year show the heavy decline of Rs. 3,28,36,986 or 64 per cent. Nearly the whole of whatever exports took place were in the first half of the year, except rice, the exports of which have continued to the end of the year owing to a good crop in Bengal and Burma. The heaviest drops are *jowári and bájri* 38½ lakhs, *rice* 27½ lakhs, *wheat* a little over 2½ crores, *wheat-flour* about 11 lakhs. A large quantity of *wheat* comes to Bombay from beyond the Presidency—from the Central Provinces, the North-Western Provinces, and even from Sind and the Punjáb. The provinces which feed the Bombay trade have suffered so severely from failure of crops that the exports from Bombay have shown a decline of over 2½ crores, including *wheat-flour*. This is the most important article of export among cereals to Europe, the United Kingdom taking nearly half of the exports. The drop in millets (jowári and bajri) is heavy since the crops came to nothing after September. The drop in rice is not very heavy owing to the Bengal and Burma crops being good and the prices remained at a moderate figure.

Gums and Resins.—There has been an advance of Rs. 59,000 or nearly 8½ per cent. over last year's exports, the largest exports being to Germany, which shows a rise of over Rs. 92,000.

Hemp.—There has been a satisfactory increase of over 3½ lakhs. Prices have been kept up in Europe, and last year's good crops in Ratnágiri and Khándesh have helped to swell the exports. The largest quantity has been taken by Belgium, exports to that country showing an improvement of over 2 lakhs, or ⅔rds of the whole increase. Germany comes next with Rs. 52,892. The United Kingdom shows a rise of Rs. 43,538.

Hides and Skins.—The figures for the last five years are—

The exports of these articles show a rise of 73,953 cwt. or 148 per cent. in quantity and Rs. 34,57,782 or 50 per cent. in value. The exceptionally high export of *hides, raw and dressed*, indicates the terrible mortality among the cattle due to famine in the greater part of the Presidency; nor do the exports give the full measure of the cattle mortality, very large quantities of hides having been retained for internal manufacture. The exports have gone exclusively to the United Kingdom, whence they will be distributed to other countries.

Horns.—Horns show an abnormal rise of 10,638 cwt. or Rs. 2,39,653, the increase in weight is 31 per cent. and in value 33 per cent. for the reasons stated in the case of *hides and skins*. The bulk of the increase in the exports goes to the United Kingdom, Belgium taking over ½ a lakh and France about ¼ lakh.

Jute—Manufactures—*Gunny bags.*—Though this is not a product of the Presidency, a large quantity is exported from Bombay every year and the increase of over 2 lakhs is due to the larger quantities sent to Bombay during the present year. Mozambique and Turkey in Asia have between them taken up the whole increase.

Manures (*Crushed Bones and Bone Meal*) show an increase over 12½ lakhs in exports, about 8 lakhs being taken by the United Kingdom and over 2½ lakhs by Germany. The large mortality among the cattle this year has assisted this trade largely, but it is in any case increasing with the number of mills devoted to the industry, and with the continued high prices in Europe.

Metals—show an advance of Rs. 4,13,530 or 111 per cent. This is an unusually large advance but is explained by the export of *copper manufactures* to the extent of about 4 lakhs. The acute distress in the Presidency has forced the people to sell their copper vessels and the good price realized in England has made the export a paying one although this represents only a portion of the large quantity thrown on the market.

There has been a drop of about 1½ lakhs or 18 per cent. in the exports of these. The largest drop is in the *essential oils* which consist principally of sandal-wood oil, rosia oil, &c., owing to the demand having fallen, and the scarcity affecting the outturn. The decrease in the *vegetable oils* is due to scarcity of oil-seeds.

The exports of *fish-maws and shark-fins* have increased by about 2 lakhs, 1½ lakhs being taken by the United Kingdom and about Rs. 70,000 by China. The fishing season has been better this year.

The total of the exports under this head, however, shows a fall of Rs. 2,67,365. There has been a drop of about 3¾ lakhs in *ghi*, the principal item of export under provisions, due principally to the famine which restricted the supply.

The exports of seeds show a heavy decline of Rs. 1,23,23,079 or 21 per cent. All the great staples such as *castor*, *linseed*, *rape*, *til or jinjili* show very heavy drops, especially considering the fact that the exports in these items last year were not very large. The only advance worth mentioning is *mowa* or *mowra*, which has improved by over 9½ lakhs and *poppy* about 4½ lakhs. Most of the centres which feed Bombay have been affected by famine and the exports were generally made in the earlier part of the year when stocks from last year were available.

Spices.—There has been a drop of over two lakhs in exports, or over 14 per cent. The three chief articles of export under this head are *cardamoms*, *pepper* and *ginger*. *Pepper* shows a heavy decline of 2½ lakhs. The crop was smaller, and as Europe does not take this article from India, the trade is confined to Persia, Turkey in Asia, and the Arabian ports besides Egypt and Aden. These could not work off the heavy supplies of last year and consequently the demand was slack. The *ginger* crop also was unsatisfactory, and this article, as an item of export, has been suffering from the rivalry of the cheap produce of Japan.

Tea.—The export trade in Indian tea is mostly with Persia and Turkey in Asia. The loss in exports with these two countries is about 8 lakhs with Persia and over a lakh with Turkey in Asia. Persian trade this year has declined both in exports and imports owing to the effects of the bad seasons from which she has been suffering for the last two years, while in the present year the exports have also been larger from Calcutta, which thus reduces the shipments from Bombay.

Teakwood—shows a decline of over ½ a lakh, but Sandal-wood shows an increase of over 1⅝ lakhs, most of which has gone to China.

Wool—Raw.—There has been an increase of over 5¾ lakhs or 7¾ per cent., which is entirely taken up by the United Kingdom. After the late depression in this trade, this advance is very satisfactory. It has been chiefly due to the high prices ruling in Europe; but the other causes which hampered the exports latterly, such has the want of labour in cleaning and sorting the wool in the local warehouses, and the plague regulations which made the export of this article difficult to European countries, have latterly disappeared. *Bikanir* wool, the finest in the country, now mostly goes to Karáchi, and is exported from that port, but *Márwár* and *Joria* send most of their produce to Bombay. The exports this year show for the greater part clearances of old stocks since the receipts this year have not been very large and are being heavily drawn upon by the local mills.

Woollen Manufactures.—These consist entirely of *carpets and rugs*, and show an advance of about 2 lakhs or 23 per cent. They chiefly go to the United States, which takes up 1½ lakhs of the increase, the United Kingdom coming next with Rs. 55,452.

GEOGRAPHICAL ANALYSIS OF THE TRADE.

The following statement shows the total trade of the Port of Bombay, combined imports and exports (in merchandise only), with the several divisions of the world during the years 1898-99 and 1899-1900 :—

	1898-99.	1899-1900.
	Rs.	Rs.
With Europe	36,69,29,237	31,40,66,817
With Africa and Adjacent Islands	3,77,05,523	3,03,92,524
With America	42,29,703	49,93,141
With Asia	19,57,58,203	21,36,88,168
With Australia	10,99,721	15,47,630
Total ...	60,57,83,387	56,46,88,280

The aggregate value of the trade with the several divisions of the world amounted to Rs. 56,46,88,280 against Rs. 60,57,83,387 in 1898-99, showing a falling off of Rs. 4,10,95,107. The total trade, however, was larger than that of the year 1897-98 by Rs. 4,40,57,662 or 8 per cent.

In the trade with Europe, there has been a decline owing to a restriction in the exports of raw cotton, oil-seeds and wheat, sent to the principal countries, while the trade with Africa and the adjacent Islands has declined owing to a diminution in the imports of sugar from Mauritius and the curtailment in the exports of jowári and bájri, rice, wheat and wheat-flour to Abyssinia, Zanzibar, Egypt and Mauritius. In the trade with America, the increase is due to an expansion of the imports of iron and steel and of locomotive engines and tenders from the United States. In the trade with Asia, there has been an increase in the imports owing to the great activity in the pearl trade with Arabia and Persia and to an increase in jowári, bájri and rice received from Turkey in Asia, Straits Settlements and Cochin-China, and under exports owing to larger supplies of raw cotton, cotton twist and yarn and opium forwarded to China, and of raw cotton to Japan. In the trade with Australia, the increase is mainly due to the large quantity of wheat imported in the year under review.

The following table shows the value of merchandise interchanged in the last two years with the principal countries with which the Port of Bombay has commercial relations :—

The value of the imports in each of the last five years was as follows:—

	Rs.
1895-96	15,73,01,350
1896-97	15,64,45,074

1898-99	15,50,24,710
1899-1900	15,72,69,389

The proportion of imports from the United Kingdom to the whole import trade of Bombay remained the same as in 1898-99, about 60 per cent., there being a slight increase of 1·5 per cent. in the trade.

The principal items are shown below.

Raw cotton (chiefly American cotton shipped at Liverpool and other ports) and cotton piece-goods show in the aggregate an increase of 77 lakhs in value, and silk and woollen goods an increase of more than 14 lakhs, as compared with the preceding year. Coal, hardware, and iron and steel have also increased considerably. On the other hand machinery has declined by 45 lakhs, copper by 38 and railway plant and rolling stock by 10 lakhs. The fluctuations under these items have already been referred to and explained in discussing the features of the import trade generally under the several articles comprised therein.

The export trade for the last five years was as follows:—

	Rs.
1895-96	4,66,72,996
1896-97	3,64,34,844
1897-98	2,81,65,851
1898-99	4,06,70,315
1899-1900	3,58,66,595

The export trade was smaller than that of the preceding year owing to the restricted exportation of raw cotton, wheat and oil-seeds on account of the failure of the crops, though the decrease was to some extent counterbalanced by an increase under hides, skins and animal bones, the result of the high mortality among cattle. There was also a larger trade in raw wool, horns, fish-maws and shark-fins and carpets and rugs. The principal articles were—

Exclusive of the trade in sugar, which has diminished by one-half, the total import trade showed an expansion, having risen from 67 lakhs in 1898-99 to 75 lakhs in the year under review, the principal increases being in apparel, glass and glass-ware, hardware and woollen piece-goods. Cotton manufac-

tures, metals (unenumerated) and aniline dyes have, however, fallen off, the last item having steadily declined during the last four years. The principal items are noted below.

The export trade was little more than half of that of the preceding year, the decrease being chiefly attributable to diminished shipments of raw cotton, the value of which fell from 81 to 38 lakhs.

1899-1900	68,72,685	1,84,07,200

The value of the imports from Belgium has been gradually declining for the last four years, having fallen from 136 lakhs in 1895-96 to 68 lakhs in the year under review. The decrease in imports was mainly in alizarine and aniline dyes, copper, iron and steel, though candles, glass and glass-ware, hardware and paper have done better. The principal items are noted below.

The decrease in exports was due to the decreased trade in raw cotton, wheat and oil-seeds. The trade in myrabolams, raw hemp and animal bones has, however, increased.

1899-1900	55,74,588	3,03,44,900

The value of imports from France was very slightly smaller than in the preceding year. There was a decline in brandy and in silk and woollen goods, but clocks and watches, saffron, copper and lead have increased. The principal items were:—

	1898-99.	1899-1900.
	Rs.	Rs.
Apparel	4,80,946	4,32,798
Clocks and Watches	5,62,642	6,06,496

Silk Piece-goods	13,77,571	11,03,797
Woollen Piece-goods	1,33,226	91,038

As with other European countries, the smaller value of exports was mainly due to the restricted trade in raw cotton, wheat and oil-seeds, France being one of India's largest customers for seeds.

The expansion of the import trade with Germany may be attributed to direct steam communication between Hamburg and Bombay. Germany has also improved the steamship service between Hamburg and America and has thus been able to send to Bombay during the year under review large quantities of raw cotton brought from that continent. Leaving out raw cotton, the imports of cotton piece-goods (coloured), apparel, hosiery, hardware and woollen goods show a larger trade, while copper, iron, steel and aniline dyes have fallen off, and the imports of sugar have practically ceased. The principal items are shown below.

	1898-99.	1899-1900.
	Rs.	Rs.
Apparel	1,93,505	3,08,155

Sugar	2,38,232	2,383
Woollen Goods	7,16,058	10,44,563

Raw cotton, wheat and oil-seeds are the staple articles of export. The trade in these was smaller, but myrabolams, animal bones and gums did better.

Greece.

This is a very small trade and does not require detailed notice.

Holland.

	Imports.	Exports.
	Rs.	Rs.
1895-96	11,09,649	33,75,569

1898-99	21,25,013	12,61,140
1899-1900	15,30,451	16,62,411

The falling off of imports was due to a large diminution in the trade in alizarine and aniline dyes. Exports chiefly consist of linseed and rapeseed which were forwarded in larger quantities.

Italy.

	Imports.	Exports.
	Rs.	Rs.
1895-96	27,04,248	1,97,24,632

1899-1900	44,43,872	1,47,30,888

The import trade with Italy continues to increase, cotton piece-goods and hosiery showing a marked improvement. Aniline dyes have, however, fallen off, while glass beads and silk goods have remained stationary.

The decrease in exports was due to the reduction in the trade in raw cotton and wheat, though oil seeds have slightly increased.

Malta.

This is a small trade confined to imports only, the value of which was practically the same as in the preceding year.

Norway.

1899-1900	2,49,305

These figures represent the direct trade with Norway. It is confined to imports and is declining, but trade with this country is also conducted *via* Hull and Hamburg. The principal articles comprised therein in the last two years are shown below.

	1898-99.	1899-1900.

This is a small trade restricted to imports, and consists of port and other wines imported from Oporto and Lisbon.

Kerosine oil received from Batoum constitutes the bulk of the import trade, the diminution in which has already been noticed. The trade in silk piece-goods and silk manufactures—other sorts (warps) also received from Batoum, has increased, but that in apparel (gold thread), received from Odessa has fallen off. The articles are noted below.

The decrease under exports is principally attributable to a large reduction of the trade in oil-seeds, chiefly castor. The re-exports of Chinese tea have practically ceased for reasons stated in the last report, while Indian tea has this year declined to half the value of 1898-99. The exports of myrabolams were larger, and those of indigo, which ceased in 1898-99, were resumed in the year under review. The fluctuations are noted below.

Hitherto, wines received from Gibraltar have been the only important article comprised in the import trade with this country, but a new trade in under-shirts (cotton hosiery) imported from Barcelona has sprung up since 1898-99, and has been considerably extended in the year under review.

The export trade consists of raw cotton and wheat sent to Barcelona, the shipments of which were larger.

Sweden.

The direct trade with this country is limited to imports only. Matches, iron and steel have decreased, but wood—other timber—has increased as compared with the preceding year.

This trade is also carried by way of Hull and Hamburg. The principal items were—

Turkey in Europe.

This is usually a small trade, but a large quantity of Danubian maize, valued at Rs. 13,59,535, received from Sulina has raised it to a high figure in the year under review. Tobacco (unmanufactured), an article ordinarily imported, was also received in larger quantities.

Oils, essential, constitute the only important article exported, the trade in which was larger.

Countries in Africa.

The export trade with Mauritius and that with the East Coast ports in Africa being practically of the same character, they are grouped together for the purposes of this analysis. The exports represent for the most part the requirements of the Indian emigrants settled in these colonies, such as clothing, rice, provisions and articles of comfort, the desire for which has been brought by them from India.

The figures of the trade with each port are shown below.—

	Mozambique.	Zanzibar.	Other East Coast Ports.	Mauritius.	Natal.
	Rs.	Rs.	Rs.	Rs.	Rs.

The principal fluctuations were—

Under Mozambique, the increase was almost entirely due to larger exports of cotton piece-goods. Under Zanzibar, the exports of grain and pulse alone represent 25 per cent. of the trade, the restricted shipments of which account for most of the falling off. The trade in cotton piece-goods, ghi and teakwood was also smaller. Under "Other Ports," the improvement may be attributed to the development of the trade of the coast towns of the German possessions in East Africa. In the trade with Mauritius, the decrease was due to the diminished exports of wheat-flour which the colony takes to a large extent, while as regards Natal, the trade was slightly smaller, the fluctuations being spread over several items, the same as last year.

The features of the import trade with each of the above places are noted below.

Mozambique.

The larger value of imports was mainly due to an increased trade in jowari and bájri, while ivory, a staple article of import, declined.

Zanzibar.

Cloves and ivory are the two important articles of import, the trade in cloves was larger, while that in ivory declined. This trade is of a fluctuating nature and is being diverted to more direct channels.

The figures for the last five years are shown below.

	Cloves.	Ivory.	Total Trade.
	Rs.	Rs.	Rs.
1895-96	14,26,543	6,69,230	24,66,355
1896-97	7,44,649	7,94,749	19,66,711
1897-98	5,06,043	5,85,456	14,72,322
1898-99	14,54,497	5,15,224	22,71,376
1899-1900	16,14,224	2,87,463	22,75,593

Other Ports.

The value of the imports was only slightly smaller. Shells and cowries and gum—arabic and olibanum are the only important items of the trade, the imports of the former being larger and of the latter smaller.

Mauritius.

The value of the trade during the last five years was as under.

	Rs.
1895-96	1,34,00,082
1896-97	1,42,92,197
1897-98	1,36,52,198
1898-99	1,53,60,423
1899-1900	1,27,32,664

This trade is practically confined to the importation of sugar, which was brought in smaller quantities in the year under review, being valued at nearly 124 lakhs against 150 in 1898-99. Cocoanut oil, received from Seychelles, has, however, slightly increased.

Natal.

Ivory is the only important article of import from this colony, and the trade in this practically ceased during the year under review, but the total value of imports was much the same as last year owing to the addition of cargo which was refused entry at Natal on account of quarantine regulations and was brought back to Bombay.

Abyssinia.

	Imports.	Exports.
	Rs.	Rs.
1895-96	75,170	18,75,877
1896-97	63,256	16,04,595
1897-98	1,32,595	4,70,172
1898-99	43,887	18,55,867
1899-1900	79,079	5,76,669

Ivory, precious stones, and pearls, unset, and shells are the principal articles of import. In the year under review there was an absence of any trade in ivory, while pearls, in which there was no trade in the preceding year, have represented a considerable amount. Shells and cowries (including tortoise shells) have, however, fallen off.

In the export trade, the falling off was almost entirely due to restricted shipments of jowári and bájri, the trade in which was large and perhaps overdone in the preceding year. Cotton piece-goods, another important item comprised in the trade, have not fluctuated to any great extent.

Cape Colony.

The trade with this colony is small and confined to exports only. It is fluctuating in its nature and hardly merits remark. Apparel, silk piece-goods and toys are the principal articles comprised in the trade recorded in the year under review.

Egypt.

	Imports.	Exports.
	Rs.	Rs.
1895-96	19,25,587	29,58,506

1898-99	6,10,749	23,96,632
1899-1900	14,31,952	14,96,443

Raw cotton from Egypt is taken by the Bombay mills for the manufacture of the medium and finer classes of yarns and goods. The imports of this article largely increased during the year for reasons already given.

Under exports, the decline is most noticeable in boots and shoes, jowári and bájri, wheat and til or jinjili seed. The boots and shoes represent for the most part Cawnpore leather goods sent for the Egyp-

tian Army, which appear to have been booked this year to Aden instead of Suez as usual. The principal items are shown below.

Madagascar.

The imports are small and unimportant. Tortoise shells and *leva* wood (registered under wood—ornamental) are the two articles imported, and the trade in this is of a fluctuating nature.

There was a considerable export trade with this island until 1896-97, but it has been declining during the last three years owing to the imposition of a protective tariff on all goods other than those of French origin since August 1897. Cotton piece-goods have suffered to a considerable extent in the year under review and account for the decrease. The following are the figures of the export trade for the last five years :—

	Rs.
1895-96	7,75,889
1896-97	5,28,002
1897-98	3,36,598
1898-99	1,33,919
1899-1900	91,926

Other Countries in Africa.

Imports *nil*. The small export trade recorded this year includes silk piece-goods of the value of Rs. 211 sent to Tunis, and Rs. 48, value of post parcels sent to Réunion.

Countries in America.

1899-1900	41,47,880	5,41,987

Kerosine oil constitutes the great bulk of the import trade. This article declined considerably, but the falling off has been more than counterbalanced by marked increases in iron and steel, cotton piece-goods (grey) and railway plant and rolling stock. In the last mentioned of these are included ten complete locomotives valued at Rs. 4,37,420 received by the B. B. and C. I. Railway Company from the United States. In cigars and other manufactures of tobacco and clocks and watches the trade was larger, while the imports of railway material ceased. The principal articles are noted below.

Under exports, the increase is shared in by most of the articles of the trade, such as apparel, cotton piece-goods (coloured), gums and resins, gunny-cloth, spices—chillies, and carpets and rugs, the increase under the last being the most conspicuous.

Other Countries in America.

Cigars received from Montreal, Canada, constitute the bulk of the trade recorded against these countries. The figures are insignificant.

Countries in Asia.

Aden.

	Imports.	Exports.
	Rs.	Rs.
1895-96	8,93,803	76,78,866
1896-97	7,51,977	77,79,589

1898-99	6,76,915	95,26,115
1899-1900	8,17,209	78,31,734

The most important items of import are gum—olibanum, ivory, pearls, and fish-maws and shark-fins, the trade in which has fluctuated, but a quantity of pig iron valued at more than a lakh and imported as ballast by the P. and O. Company helped to swell the imports in the year under review.

Between Bombay and Aden there is a considerable export trade, chiefly in cotton yarns, cotton piece-goods, tobacco (unmanufactured), grain and pulse, ghi, seeds, spices and sugar, Aden being a depôt for the supply of these and other goods to the adjacent districts in Arabia and Africa. The decrease this year occurs chiefly in grain and pulse, tobacco and ghi, the trade in which was affected by the failure of crops.

Arabia—Muscat.

	Imports.	Exports.
	Rs.	Rs.
1895-96	48,86,257	55,91,557
1896-97	41,62,601	41,52,964

1898-99	36,25,102	41,59,460
1899-1900	71,46,378	41,23,438

The noticeable feature of the import trade with this country this year has been the large increase in pearls which were imported into Bombay in connection with the Paris Exhibition. This item alone accounts for the large augmentation of the imports. Dried and salted fish, fish-maws and shark-fins, and gum—olibanum have increased, but dates show a falling off.

The export trade has not varied much, the small decline in the trade being chiefly due to restricted shipments of coffee and cotton twist and yarn.

Arabia—Other States.

	Imports.	Exports.
	Rs.	Rs.
1895-96	1,63,155	36,16,046

1898-99	36,054	28,07,273
1899-1900	71,625	15,82,495

The import trade is small and not of much consequence. Shells and cowries (chiefly mother-o'-pearl shells) form the only important article imported. The trade in these was larger in the year under review.

The export trade, however, is of considerable dimensions, and the decrease in it is attributable to diminished exports of grain and pulse. Ghi has also declined, but cotton piece-goods have increased.

Ceylon.

1898-99	6,57,762	21,72,339
1899-1900	3,77,859	22,09,439

Tea and cardamoms are the only important articles imported. The trade in these was smaller, the figures being :

	1898-99.	1899-1900.
	Rs.	Rs.
Cardamoms...	1,71,575	69,526
Tea	4,03,833	1,71,016

The deficit under cardamoms was made up for by increased imports from Malabár, while the tea trade has probably been diverted to other channels.

The value of the export trade was much the same as in 1898-99. An increase under cotton, silk and woollen piece-goods and a decrease under grain and pulse are the only noticeable fluctuations.

Tea	9,25,161	9,80,839

The largest item is raw silk which has declined to a considerable extent. The crop of silk in China was hardly sufficient to meet the steady demand from Europe and America, caused in part by the approach of the Paris Exhibition. The diminution in the trade in silk piece-goods, which form the next most important item, is to be attributed to the same cause and the consequent rise in prices. The countervailing duties are probably the chief factor in the enlargement in the imports of sugar, while tea has fluctuated slightly and shows no real signs of recovery. Glass-ware has fallen of as Japan is now a competitor with China in that trade, while the large increase in grain and pulse was due to the causes already referred to.

The export trade has again increased and nearly approaches the level of the year 1896-97. The trade in the most important items is shown below for the last ten years.

	Raw Cotton.	Cotton, Twist and Yarn.	Cotton Piece-goods (Grey).	Opium.
	Rs.	Rs.	Rs.	Rs.
1890-91	21,34,844	5,42,41,515	5,61,405	3,27,98,530

1899-1900	42,12,451	5,98,02,495	5,13,379	3,04,66,380

The trade in all the four items was larger except in opium, since though the value of the latter was larger by Rs. 24,09,431, the number of chests exported was smaller by 1,031. The fluctuations under these items have already been noticed in discussing the features of the export trade generally.

Cochin-China.

Rice is occasionally imported from Saigon in Cochin-China. It was imported in 1897-98 and again in the year under review in consequence of the scarcity and famine. This item constitutes practically the whole trade.

The exports are small and unimportant. They represent this year a quantity of raw cotton sent to Hanoi.

The largest items of import are coal, matches and silk-piece-goods. Coal was this year imported in larger quantities, chiefly on account of facilities of transport and freight. It is chiefly used by the cotton mills whose agents are interested in Japanese shipping. Matches remained almost stationary, but silk piece-goods declined considerably, owing to the brisk demand from Europe on account of the Paris Exhibition. Among other articles, apparel has fallen off, but camphor and glass-ware have increased. The figures are noted below.

	1898-99.	1899-1900.

The leading article of export and one that represents 98 per cent. of the total trade is raw cotton, the shipments of which were larger, Japan taking the inferior Indian growths. Besides raw cotton, indigo is the only important item of export, and in this also the trade was considerably larger.

It has yet to be seen how the change of tariff inaugurated in January 1899 will affect the development of the foreign trade of Japan.

The following statement shows both the fluctuations in the Japanese demand for Indian raw cotton and cotton yarn, and the development of the Japanese spinning industry for the last nine years :—

The imports of American cotton into Japan continue to increase.

The following extract from the Board of Trade Journal for December 1899 on American *versus* Indian cotton in Japan is worthy of perusal :—

"The United States Consul-General at Yokohama has recently reported as follows on American *versus* Indian cottons in Japan :—

Taking American middling and Indian Broach growths into consideration, it will pay the mill-owner in Japan to use the American staple, even if it be dearer than Indian by a yen a picul (2s. per 138 pounds).....Inferior Indian growths known as fair and medium stapled cottons, are indispensable in producing the coarser counts from 16's downward and will continue to be bought as heretofore, the average count turned out by the Japanese mills being 16's. It is in the 20's and higher counts only that the American cotton will replace Indian cotton. Even here the mills are said to be very cautious. Of yarns spun at present, at least 80 per cent. are taken up by consumers in the interior for home weaving. A great deal of this has to be dyed, and it is alleged that the yarn produced from American cotton, though stronger and whiter, does not take the dye easily. Whether the fault lies in the yarn or in the dyeing process my informant is unable to say."

1899-1900	1,82,025	13,811

The import trade is practically confined to tea, which has fallen off in the year under review. The tea is imported for re-export to Persia and Turkey in Asia.

Under exports, the principal item is cotton twist and yarn, the trade in which has been declining for the last two years, yarn being probably now imported from Japan owing to its proximity to Java.

Mekran and Somniani.

	Imports. Rs.	Exports. Rs.
1895-96	5,69,690	1,03,386
1896-97	3,16,755	1,57,834

1898-99	2,19,565	1,07,268
1899-1900	3,07,091	1,04,281

Imports of raw cotton from this place had almost ceased in 1898-99, but they have revived this year and account for the improvement noticeable in the trade. Fish-maws and shark-fins, dried and salted fish and matting are the other important articles of import, and the trade in these has not fluctuated to any great extent.

The export trade was much the same as in 1898-99. Cotton piece-goods, rice and silk (raw) are the principal articles exported.

Persia.

	Imports. Rs.	Exports. Rs.
1895-96	76,49,625	1,54,96,064

The increase in the aggregate value of the import trade was chiefly due to the large importation of pearls owing to the speculative demand for that article in connection with the Paris Exhibition. Horses were imported in larger numbers, probably in the expectation of a larger demand by Government for remounts. Raw cotton and grain and pulse were brought in larger quantities on account of the failure of the Indian crops, while the larger trade in dates and other dried fruit is ascribed to plentiful harvests in Turkey in Asia and Persia. On the other hand, the imports of assafœtida, skins (raw) and wool (raw) were somewhat smaller, but those of Persian false gum were larger than in 1898-99. The principal items are noted below.

The most important items of the export trade are cottoa twist and yarn, cotton piece-goods, indigo, grain and pulse, sugar and tea, all of which have declined except the first, which remained stationary. The falling off was due partly to the dislocation of the trade on account of the plague and famine and partly to its diversion to direct sources, especially under the items tea, sugar and cotton piece-goods. Russia, Germany and other European countries are all striving to obtain a share of the Persian market from the United Kingdom. The principal items of the export trade are noted below.

	1898-99. Rs.	1899-1900. Rs.

The Philippines.

The import trade is practically confined to two articles—hemp and hemp manufactures (Manilla rope). Imports of hemp had ceased entirely in 1898-99, but they have revived, and amounted to Rs. 36,499 in the year under review. The export trade is insignificant.

Siam.

	Imports. Rs.	Exports. Rs.
1895-96	15,45,514	5,643
1896-97	7,02,481	7,321

1898-99	5,75,798	16,478
1899-1900...	9,42,441	11,298

The import trade is generally practically limited to teakwood, but a certain amount of silk (raw) and a large quantity of rice were received direct from Siam in the present year accounting for the increase, while the timber trade has also partially revived.

The exports are small and unimportant.

Straits Settlements.

	Imports. Rs.	Exports. Rs.
1895-96	29,25,696	58,59,165
1896-97	23,10,957	51,18,315
1897-98	45,94,590	46,81,780
1898-99	22,06,154	46,75,685
1899-1900	30,07,660	42,44,699

The principal articles imported are canes and ratans, coffee, rice, gum—benjamin, tin, sago, silk, betel-nut, nutmegs, pepper and timber. The improvement in the trade this year was chiefly due to increased imports of rice, tin, benjamin, sago and silk, the enlargement of the trade in rice being the most remarkable. Amongst other goods coffee shows a large falling off, while nutmegs and timber have slightly declined. Betel-nuts were much the same as in the year before.

Cotton twist and yarn and cotton piece-goods constitute the bulk of the export trade in which there was a large restriction this year. There was, however, an increase in the trade in apparel, hardware, dried fruit, cloves and vegetables (fresh), with a diminution in the exports of ghi and coriander and cummin seed.

Sumatra.

The trade is small and insignificant, and the kerosine oil trade, from which much was expected, has ceased owing to the failure of the oil borings.

Turkey in Asia.

	Imports. Rs.	Exports. Rs.
1895-96	38,29,290	43,52,752
1896-97	29,91,337	38,37,173

1898-99	12,21,508	33,47,136
1899-1900	33,99,588	31,46,515

The imports which represent the largest values are horses, Persian gall-nuts (dyeing materials), grain and pulse (chiefly jowári and bájri) and dates. Grain was imported greatly in excess of the trade of previous years, the value rising to over 16 lakhs against half a lakh only in 1898-99, while dates, which come next, have also considerably increased, the value being three times as large as that of the preceding year. The number of horses fell off, being 922, valued at Rs. 2,88,050, against 1,394, valued at Rs. 4,33,800, in 1898-99. Gall-nuts declined to a large extent.

The principal articles comprised in the export trade are cotton twist and yarn, cotton piece-goods, hardware, gunny bags, metals, pepper, sugar and tea. The decline in the trade this year was chiefly due to restricted exports of cotton twist and yarn, tea and pepper, though the trade in gunny bags was larger. Cotton piece-goods were rather steady.

Other Countries in Asia.

There was no trade under these in the year under review.

Australia.

Horses, coal and tallow are the principal imports. The total trade under these was much smaller in the present year, but a large quantity of wheat sent from Victoria to Bombay increased the total trade. The figures are noted below

	1898-99.	1899-1900.	1898-99. Rs.	1899-1900. Rs.

The exports consist mainly of raw cotton, myrabolams, fish-maws and shark-fins and provisions—other sorts (Indian condiments), under all of which there was a larger trade, except in myrabolams, which showed a slight falling off. The figures were—

Gold.—It will be seen from the above table that the imports of gold show an increase of Rs. 91,01,772 as compared with those of 1898-99. They have been steadily increasing for the last three years, and it is worthy of remark that in the year under review imports of gold to the large extent of Rs. 1,58,04,187 consist of Japanese yens which the Banks found it profitable to sell to Government. This is the first time that such exceptionally heavy shipments of gold from Japan have been made to Bombay. The imports from the United Kingdom and China were larger, but those from Egypt considerably declined. The receipts from Ceylon and Turkey in Asia also fell off to a smaller extent.

The exports were made chiefly to the United Kingdom. The excess of imports over exports amounted to Rs. 5,26,13,246, of which Rs. 3,92,67,613 were received into the Mint on behalf of the Currency Department.

Silver.—Under silver the imports amounted to Rs. 7,37,02,077 against Rs. 7,39,56,972 in 1898-99, showing a falling off of Rs. 2,54,895. There was an increase of Rs. 1,66,08,269 in the imports from the United Kingdom and of Rs. 1,91,687 in those from Austria-Hungary, but the imports from African and Asiatic countries were considerably less than in the previous year, the falling off of the imports from China being Rs. 55,18,108. The imports from Australia also declined to the extent of Rs. 37,98,843.

The exports of silver exceeded those of 1898-99 by Rs. 1,40,38,524, owing chiefly to increased shipments to Ceylon and to the Straits Settlements. The exports to Arabia, Persia and Siam were also slightly larger. On the other hand the exports to Zanzibar and Mauritius fell off considerably. The whole quantity of silver exported consisted of coin, except a fraction of the value of Rs. 2,26,996. 59 per cent. of the silver imported went to the Mint, free of duty, to be coined into British dollars.

The following statement shows the descriptions of Gold and Silver imported and exported in the year 1899-1900 :—

Teakwood	4,39,381	3,09,675

Under 9 of these there has been a larger trade in the year under review; in 9 there has been less, and in 1 the trade has remained stationary.

In 6 of these articles there has been a larger trade, while 10 have declined and 4 have remained stationary, as compared with 1898-99.

Under treasure, the exports of gold were valued at Rs. 32,313 against Rs. 34,636, and those of silver at Rs. 48,72,892 against Rs. 60,44,022 in 1898-99.

British Ports in other Provinces.

Bengal Presidency.—This trade was valued at Rs. 2,30,84,658 against Rs. 1,64,03,806 in 1898-99, showing an improvement of Rs. 66,80,852,—resultant on the large importations of grain from this Presidency. The principal items were—

	1898-99.	1899-1900.
	Rs.	Rs.
Coal	62,62,318	51,87,001
Grain and Pulse—

Seeds—		
Mustard	10	1,54,637
Rape	1,26,971	4,02,778
Tea	16,03,479	10,62,396

The increase under rice and other grain has been above referred to. Rape and mustard-seed is received from Calcutta for re-exportation to Europe, in years of good harvests or when the freights are favourable.

The deficit under coal has been made up for by larger imports from the United Kingdom and Japan, while that under tea was due to a restricted demand from Persia, which takes most of the tea brought from Calcutta. The trade in gunny bags and gunny cloth necessarily depends on the export to foreign countries of grain, in which there was this year a large decline. The imports of rope and twine and printing and writing paper have not varied much.

Madras Presidency.—The imports were valued at Rs. 1,15,08,808 against Rs. 90,83,481 in 1898-99, showing an improvement of Rs. 24,25,327. The principal items were—

Sugar	2,31,148	2,04,947
Wood—		
Ornamental—		
Sandalwood	1,85,375	1,72,701

The trade under grain of all kinds increased largely owing to the failure of crops in the Bombay Presidency, and the import of spices and fodder was also largely augmented owing to this cause. There was a restricted demand for coir manufactures, cocoanut oil and sugar, but the other items show little variation.

Burmah.—This trade was valued at Rs. 4,32,82,828 compared with Rs. 1,54,27,322 in 1898-99, the very exceptional improvement of Rs. 2,78,55,506 being due to the unprecedentedly large transactions in rice and other grains, especially the former. The principal items were—

	1898-99.	1899-1900.
	Rs.	Rs.
Cotton—		
Raw	1,925	1,80,513
Grain and Pulse—

Cotton-seed...	61,650	2,29,115
Teakwood	36,44,387	39,32,499

Besides rice and other grains, raw cotton and cotton-seed have increased, while the imports of teak-wood though smaller than those of the preceding year are not below the average of the last five years, and the decrease may be ascribed to a check in the activity of building operations in Bombay.

Sind.—The imports from this province were valued at Rs. 1,27,14,821 against Rs. 84,72,187 in 1898-99, showing an improvement of Rs. 42,42,634, shared in by most of the principal items comprised in the trade. Rice, skins (raw) and rapeseed have, however, fallen off. The figures were—

	1898-99.	1899-1900.
	Rs.	Rs.
Cotton—		
Raw	8,20,518	28,11,411

Dried Fruits (chiefly Dates)	5,37,002	7,95,783
Rapeseed	3,73,089	2,78,100

As has been stated in previous reports, the increasing direct export trade of Karáchi with foreign ports tends to interfere with, and generally to decrease, the exports from Sind to Bombay, and this was especially the case with regard to skins. The improvement noticeable under most of the heads was due to the failure of the crops in Bombay.

British Ports in the Bombay Presidency.

The value of the imports from these ports amounted to Rs. 1,36,75,192 against Rs. 1,46,84,141 in 1898-99, showing a falling off of Rs. 10,08,949. The principal items were—

Fire-wood	6,14,846	6,54,166
Treasure—		
Silver	3,01,231	4,09,912

The falling off of the trade is mainly due to restricted imports of grain, raw cotton, oil-seeds and cotton twist and yarn, though spices, sugar, myrabolams, fodder, turmeric and fire-wood show larger transactions. This trade, which had been disorganised by the prevalence of plague during the last four years, was yet more severely affected by the failure of crops over a very large area of the Presidency.

Indian Ports not British.

Cutch.—The imports were valued at Rs. 25,47,893 against Rs. 35,12,488 in 1898-99, showing a falling off of Rs. 9,64,595, chiefly attributable to restricted transactions under cotton (raw), the staple article of import, caused by the total failure of the rains. The principal items were—

	1898-99.	1899-1900.

Cotton—

Besides cotton (raw), castor-seed and wool (raw) have also fallen off, but hides and skins have increased owing to the great mortality among cattle.

Káthiáwár.—The value of the trade amounted to Rs. 1,42,42,696 against Rs. 2,69,86,219 in 1 showing a falling off of Rs. 1,27,43,523. The principal items were—

Treasure—		
Silver	1,01,485	12,62,698

Raw cotton, a leading article of import, represents two-thirds of the entire trade, and in this alone there has been a decrease of 131 lakhs on account of the drought. Grain and pulse (chiefly wheat), ghi and castor and til-seeds suffered similarly, while the trade in fish (unsalted) fluctuated according to the result of the fishing season. Hides (raw), animal bones and raw wool have increased here as elsewhere, while the imports of cotton twist and yarn revived after a suspension during the two preceding years. The increased transactions under treasure probably represent value of part of the large supplies of rice and other grain that Káthiáwár obtained from Bombay in the year under review.

Foreign Konkan (*Janjira*).—The imports were valued at Rs. 2,35,946 against Rs. 1,97,286 in 1898-99, showing an improvement of Rs. 38,663, due to a larger trade in myrabolams, betel-nuts and fire-wood. The principal items were—

	Rs.	Rs.
Myrabolams	8,505	18,621

Gáikwár's Territory.—This trade was valued at Rs. 3,02,540 against Rs. 3,33,863 in 1898-99, showing a falling off of Rs. 31,323, chiefly due to restricted imports of castor-oil. Jowári and bájri have also decreased, while the trade in fire-wood has been larger. The principal items were—

	1898-99.	1899-1900.
	Rs.	Rs.

Fire-wood	30,272	49,504

Cambay.—The imports were valued at Rs. 1,33,629 against Rs. 2,67,956 in 1898-99, showing a falling off of Rs. 1,34,327, chiefly attributable to a smaller trade in tobacco (raw), wheat, pulse and seeds, though fodder has increased. The principal items were—

	1898-99.	1899-1900.
	Rs.	Rs.
Tobacco, Unmanufactured	66,506	13,302

Travancore.—The imports from this province were valued at Rs. 33,11,190 against Rs. 38,29,251 in 1898-99, showing a falling off of Rs. 5,18,052, chiefly due to diminished transactions in copra, the imports of which were rather larger than usual in the preceding year. The principal items were—

Pepper	9,34,578	8,38,911

This trade is liable to vary according to the state of the crops in South Malabár and the demand for the produce of that district in the Bombay market.

Cochin.—This is a casual trade, no transactions having been recorded under it in the year under review.

Goa.—The imports were valued at Rs. 1,31,88,120 against Rs. 40,59,294 in 1898-99, showing the large augmentation of Rs. 96,28,826. The principal items were—

This trade represents for the most part the produce of the Southern Maráttha Country and other districts above the Ghâts brought by rail to Marmagao and thence shipped to Bombay. The through traffic to and from Bombay was almost entirely suspended during the two years 1896-97 and 1897-98 owing to the combined reduction of rates *vid* Poona by the Southern Maráttha and the G. I. P. Railways. An understanding between these Companies and the West India Portuguese Railway has led to the alteration of these rates and the traffic has again reverted to the West of India Portuguese Railway. In the year under review it exceeded its former level. Amongst Goa products, the trade in betelnuts was much the same as in the preceding year. The trade in cocoanuts increased, but that in mangoes has fallen off.

Daman.—Imports were valued at Rs. 3,589 against Rs. 17,144 in 1898-99, showing a falling off of Rs. 13,555, chiefly due to an absence of any transactions under fish-maws and shark-fins, the chief item of the trade. This may be ascribed to the outbreak of plague at that port.

Diu.—Here the imports were valued at Rs. 83,941 against Rs. 70,937 in 1898-99, showing an improvement of Rs. 13,004, chiefly attributable to a larger trade in fish-maws and shark-fins, the supplies of which from Daman altogether ceased in the year under review.

Pondicherry.—This trade is of a casual nature, some of the local products of the settlement being occasionally forwarded to the Bombay market. The principal articles imported this year were cocoanuts and ground-nut and til or jinjili oil valued in the aggregate at Rs. 30,761.

British Ports in other Provinces.

Bengal Presidency.—The exports were valued at Rs. 1,19,93,677 against Rs. 1,30,24,961, showing a falling off of Rs. 10,31,284. The principal items are noted below.

This trade has been declining for the last four years, though it had steadied a little in 1898-99. The decrease this year was chiefly due to restricted shipments of raw cotton and cotton twist and yarn, while cotton piece-goods (Indian and foreign) and metals and manufactures of metals were exported in larger quantities. Among other fluctuations aniline dyes exhibit a considerable falling off.

Madras Presidency.—The value of the exports amounted to Rs. 1,44,93,824 against Rs. 1,60,56,351 in 1898-99, showing a decrease of Rs. 15,62,527. The principal items were—

This trade represents merchandise forwarded from Bombay to the Malabár Coast. After being affected for three years by the outbreak of plague it has been further reduced by the failure of the local crops and the consequent scarcity in the Bombay Presidency. The contraction of the trade this year was chiefly due to restricted shipments of cotton twist and yarn and grain and pulse, while metals and kerosine oil have increased.

Burmah.—The exports were valued at Rs. 46,91,411 against Rs. 52,87,463 in 1898-99, showing a falling off of Rs. 5,96,052. The principal items are noted below.

Eliminating the transactions under treasure from the total trade of each of the two years 1898-99 and 1899-1900, the trade in merchandise alone exhibits in the year under review an improvement of more than 18 lakhs, a partial recovery from the depression of more than 23 lakhs which it experienced in the preceding year. Cotton piece-goods, sugar, cocoanut kernel, cotton twist and yarn and ghi have increased, while copper, ivory, kerosine oil and woollen piece-goods have declined. The increase in the total may be ascribed to a revival of trade after the plague.

The exports were valued at Rs. 1,49,22,274 against Rs. 95,22,787 in 1898-99, showing an improvement of Rs. 53,99,487, due almost entirely to the large expansion of the trade in grain and pulse.

The foreign trade of the subordinate ports is not of any large dimensions. There was a slight improvement during the year, but the figures were still considerably below those of 1897-98. As stated in former reports, two-thirds of the amount was direct trade, and one-third transhipment in Bombay.

FOREIGN IMPORTS.

The following table shows the distribution of the foreign import trade according to countries :—

United Kingdom.—This trade represents coal imported at Surat and Broach for the use of the mills there by transhipments effected at Bombay. The decrease is attributed to the substitution of firewood for coal in the mills at Broach.

Arabia—Muskat.—Limestone pebbles and dates, wet and dry, brought by Arab vessels to Broach and Surat are the principal articles comprised in this trade. The stone was imported in smaller quantities partly because lime was not so much in demand for the disinfection of houses as it was during the previous outbreaks of plague and partly because of the balance on hand from last year's imports. The trade in dates was, however, larger owing to a plentiful harvest.

Mekran and Sonmiani.—Salted fish is by far the most important article imported from this tract of country, chiefly at Bulsár and Trombay. It has declined this year at both the places, at Bulsár owing to the trade being diverted to Káthiáwár, at both Bulsár and Trombay on account of the scarcity and famine. Kapattas or mat-wrappers form another article of import, the trade in which, however, was not of any large dimensions. These were received chiefly at Anjanvel.

Turkey in Asia—Bassorah.—Dates are received from this place, the imports for the year being larger than usual.

The trade shown against *Mauritius*, *Aden*, *Japan* and *Persia* last year was of a casual or experimental nature and has not continued during the year under report.

The articles comprised in the foreign import trade are shown in detail in the following table :—

The export trade is small and unimportant. It represents provisions and other miscellaneous goods taken on their return journey by the crews of the vessels that call at the subordinate ports from Muskat, Mekran and other places. The amount entered this year against Zanzibar represents value of 99 gallons of country spirit exported to Mombassa from the distilleries at Uran under the sanction of Government accorded in their Resolution No. 3152, dated 6th May 1899, Revenue Department.

FOREIGN SHIPPING.

The following table shows the total number and tonnage of vessels which entered and cleared with cargoes from and to foreign ports during the two years 1898-99 and 1899-1900 :—

Total ..	134	7,108	47	2,892	—87	—4,216

The vessels entered were all "sailing" and of the following nationalities :—

1 Portuguese.
8 Turkish.
36 Native craft.

The two vessels cleared were also "sailing," one being an Arab and the other a Native craft.

In the foreign shipping of the subordinate ports, the number of vessels entered is always in excess of the number cleared, which is due to the fact that vessels coming from the Gulf and other foreign ports generally call at several Indian ports before they return home. On their first arrival at a British

Indian port they are entered as "Foreign Shipping," but when they pass on to another Indian port they are entered under the clearances as "Coasting Shipping" and are merged in its figures.

There were neither entries nor clearances of vessels in ballast from and to foreign ports in the year under review as will be seen from the following table:—

The total value of the coasting trade of the subordinate ports, exclusive of Government stores and treasure, amounted this year to Rs. 6,39,78,852 against Rs. 6,31,09,911 in 1898-99, showing an increase of Rs. 8,68,941. Imports of merchandise were valued at Rs. 2,81,61,127 against Rs. 2,42,70,333, showing an improvement of Rs. 38,90,794 while exports were valued at Rs. 3,46,64,966 against Rs. 3,81,84,702, showing a decrease of Rs. 35,19,736. Extended transactions in grain and pulse helped to swell the imports, while the diminution of the export trade is due to restricted shipments of these articles as well as of other raw produce, such as cotton, seeds and spices forwarded from the subordinate ports to the Bombay and other markets, both the variations of the trade being accounted for by the failure of the crops and the consequent scarcity and famine. Under treasure, the imports were valued at Rs. 6,37,405 against Rs. 2,63,917 and exports at Rs. 5,15,354 against Rs. 3,90,959 in 1898-99, both showing an improvement of Rs. 3,73,488 and Rs. 1,24,395, respectively. Imports and exports of Government stores and treasure were valued at Rs. 5,76,886 against Rs. 6,92,258, showing in the aggregate a falling off of Rs. 1,15,372.

British Ports in Other Provinces.

Bengal Presidency.—This trade represents coal imported for the use of the mills at Broach and Surat. The decrease is accounted for partly by the substitution of fire-wood for coal and partly by the closing of the mills for a portion of the year.

Madras Presidency.—The value of this trade amounted in this year to Rs. 22,03,318 against Rs. 19,98,088 in 1898-99, showing an improvement of Rs. 2,05,230. The figures were—

The scarcity and famine led to the increased imports of grain and pulse, but the decrease in the imports of cocoanuts, cocoanut-kernel and cocoanut-oil is attributed to the good crop of cocoanuts in the Bombay Presidency itself as well as to stocks on hand from the importations of the previous year. The trade in cocoanuts may also have been affected by the famine in Gujarát to which province they are generally largely exported.

Burmah.—The trade with this province is of a casual nature. It represents this year a quantity of tobacco (unmanufactured), rice and teakwood imported at Surat, and valued in the aggregate at Rs. 20,830.

Sind.—Rice and dates received at Surat and Broach from Karáchi represent the bulk of this trade. Rice came this year in much diminished quantities. The figures were—

British Ports within the Bombay Presidency.

The interportal import trade of the Bombay Presidency was valued this year at Rs. 2,44,91,321 against Rs. 2,03,07,972 in 1898-99, showing an enhancement of Rs. 41,83,349 shared in by all the ranges except Uran, where the trade this year remained stationary. The trade of each range is shown below in lakhs of rupees.

There has been a large increase under grain and pulse owing to the failure of the local as well as the up-country crops; under kerosine, the increase is mainly due to a rise in prices and as regards salt there has been no increase in the quantity imported, the larger value of the trade being accounted for by the high price at which salt was sold at Sanikatta, Shiroda, and other salt works. The untimely rainfall of April 1899 greatly retarded the manufacture, and washed away salt in large quantities, ultimately diminishing the stock. Betelnuts form an article of export from these ports and the increase under that head under imports is ascribed to large interportal movements and good condition of the crops in districts below the ghâuts. In the decreases, that under cocoanuts, cocoanut-kernel and cocoanut-oil is attributed to a good local crop of cocoanuts and to accumulations of stock; and that under metals partly to a rise in prices and partly to importations from other sources. The transactions under treasure depend upon the mode of remitting money that traders adopt, *viz.*, either by means of supply-bills payable at the Government treasuries or by sending the money in cash by the sea route. This year they had recourse to the latter procedure.

The trade of the ports in the *Ratnágiri* Range was valued at Rs. 88,24,895 against Rs. 71,67,985 in 1898-99, showing an improvement of Rs. 16,56,910. The principal items of the trade were—

In this range rice and paddy were received to nearly double the value of the preceding year and helped to swell the trade to a very large extent. The increase under liquors was due to supplies obtained by the A'hkári farmer from ports outside the district, while as regards the two items of oils, mineral (kerosine) and vegetable (cocoanut), the increase under the first is one of value only, the quantity imported being smaller and as to the other it had to be imported in larger quantities to make up for the deficit under the first. The larger trade in dates and other dried fruit is attributed to depletion of stocks last year. In the items showing decreases, the falling off under almost all the heads is attributed to the disorganization of the trade caused by the famine and the plague—the traffic between the places above the ghâuts and the ports at the mouths of the creeks having been much restricted on that account.

The interportal import trade of the ports in the *Uran* Range was valued at Rs. 26,51,926 against Rs. 27,33,261 in 1898-99, showing a falling off of Rs. 81,335, almost equal to the improvement that the trade presented in the preceding year. The details were—

The increased imports of grain and pulse and seeds are as in other districts attributed to the failure of the crops, while the falling off under cotton piece-goods, country liquor and metals indicates the poor economic condition of the working classes in a year of scarcity and famine. Mowra-flowers were imported in smaller quantities owing partly to the restricted manufacture of liquor and partly to the failure of the crops in Gujarát. The trade recorded under "wood manufactures" includes casks used at the distilleries for the storage of liquor. It necessarily declined.

The value of the imports in the *Thána* Range amounted to Rs. 63,04,977 against Rs. 57,80,825 in 1898-99, showing an improvement of Rs. 5,24,152. The principal items were—

The explanation for the larger transactions under grain and pulse was the same as elsewhere. Coal is largely used for the manufacture of chunam, and the decrease under that head is said to be due to the substitution of fire-wood and coal-dust for coal in the year under review; while the smaller transactions under liquor are ascribed to a paucity of marriages among the Koli and the Agri population of the district and those under fish, dry, unsalted, to accumulation of stocks. Salt was imported at Thána in smaller quantities for transportation to the districts above the ghâts owing to the plague and famine prevailing there.

The import trade of the ports in the *Surat* Range was valued at Rs. 47,51,998 against Rs. 31,96,532 in 1898-99, showing an improvement of Rs. 15,55,466. The principal items were—

There has been a very large increase under the different sub-heads of grain and under seeds on account of the severe and widespread famine in Gujarát. The item of animals—living, includes the value of cattle that were sent from Dholera and Gogo on account of the scarcity of water and fodder in the adjoining districts, while the larger transactions under raw cotton are said to be due to that staple having been imported this year by the mill-owners of Broach from Bombay instead of from Káthiáwár. The restricted transactions under all the items except kerosine oil, are attributed to the stagnation of the trade on account of famine. The trade in kerosine-oil has been gradually declining, having been diverted to the railway.

Indian Ports not British.

Goa.—The total value of this trade amounted to Rs. 7,97,795 against Rs. 8,62,307 in 1898-99, showing a falling off of Rs. 64,512. The principal items were—

	1898-99.	1899-1900.
	Rs	Rs.
Cotton Piece-goods (Coloured) ...	23,255	26,181

Fish, Salted	67,887	14,610
Cotton-seed	25,182	16,728
Betelnuts	44,651	40,225

The decrease is chiefly due to restricted imports of salted fish, the trade in which fluctuates with the results of the fishing operations of the season.

Daman and Diu.—This is a comparatively small trade. By far the largest item of import is dried fish, salted and unsalted, received from Diu, the transactions under which were smaller than last year.

Foreign Konkan (Janjira).—Here the trade was valued at Rs. 51,875 against Rs. 96,073 in 1898-99, showing a falling off of Rs. 44,198, chiefly attributable to diminished imports of rice and paddy and other grain owing to the deficient harvests. The figures were—

Cutch.—The imports from this province were valued at Rs. 26,955 against Rs. 39,738 in 1898-99, showing a falling off of Rs. 12,783. The figures were—

Fish, Dried, Salted	8,021	5,637

The decrease is almost entirely accounted for by the diminished imports of raw cotton, the only important article comprised in the trade.

Káthiáwár.—The value of the imports from this province amounted to Rs. 9,05,456 against Rs. 8,34,238 in 1898-99, showing an improvement of Rs. 71,218. The principal items were—

This trade has not varied much. Some of the grain imported from this province represents transit trade, the grain having been first carried from Bombay by steamers to ports in Káthiáwár, where they touch, and being forwarded thence to the neighbouring ports in British territory by native craft. The trade in dates is of the same nature, the fruit being first landed at Verával by Arab vessels that frequent that port and distributed from that place to ports in Gujarát. The smaller transactions under ghi were probably due to the high rate of mortality among cattle on account of the famine.

Gaikwár's Ports (Navsári and Bilimora).—The imports were valued at Rs. 1,80,405 against Rs. 1,55,095 in 1898-99, showing an increase of Rs. 25,310. The principal items were—

Fodder for cattle shows a large increase, as do grain and pulse, for reasons already referred to.

Cambay.—The imports from this port were valued at Rs. 35,838 against Rs. 68,663 in 1898-99, showing a falling off of Rs. 32,825, chiefly attributable to smaller transactions under tobacco (unmanufactured) and grain and pulse, the only important items comprised in the trade.

British Ports in other Provinces.

Bengal Presidency.—This trade represents exclusively salt forwarded to Calcutta from the Uran and Thána salt-works. The figures for the last five years are shown below.

	Indian Mds.	Value. Rs.
1895-96	414,640	1,263,241
1896-97	520,293	16,39,786

1898-99	537,048	15,24,388
1899-1900	607,728	17,29,456

To favourable rates of freight the increased trade is ascribed.

Madras Presidency.—The export trade with this Presidency was valued at Rs. 43,49,186 against Rs. 50,26,105 in 1898-99, showing a falling off of Rs. 6,76,919. The principal items were—

The decrease is chiefly attributable to a large reduction in the shipments of rice on account of the ailure of the local crops. Chillies have declined for the same reason. The exports of salt, however, vere nearly equal to those of the preceding year.

Sind.—The exports were valued at Rs. 2,15,302 against Rs. 2,11,686 in 1898-99, showing a small mprovement of Rs. 3,616 only. The trade represents almost entirely shipments of country liquor orwarded to Karáchi from the distilleries at Uran. These were much the same as in the preceding ear. Trade of Subordinate Ports.

British Ports within the Bombay Presidency.

The interportal export trade of the ports in the Bombay Presidency at the subordinate ports was valued this year at Rs. 2,35,23,071 against Rs. 2,54,81,796 in 1898-99, showing a falling off of Rs. 19,58,725. The distribution of the trade between the several ranges is shown below.

The improvement under myrabolams, betelnuts and pepper, chiefly exported to Bombay, is attributable to good crops. Cardamoms, too, were exported in larger quantities, but a decrease in value was caused by a falling off of prices. The larger exports of fish are accounted for by a successful fishing season, while the exports in sandalwood represent the quantity that is forwarded to the coast ports from Mysore and other districts above the ghâts for shipment to Bombay. The increase under salt was due to high prices ruling at Sanikatta, the increase in the quantity exported being trifling. Firewood from these ports is generally exported to Bombay, and the decline under that head is attributed to a rise in the local prices which made the trade unremunerative.

The value of the export trade of the ports in the *Ratnágiri* Range was valued at Rs. 52,52,755 against Rs. 49,34,446 in 1898-99, showing an increase of Rs. 3,18,309. The principal items are—

Eliminating the transactions under treasure from the totals of each of the two years, 1898-99 and 1899-1900, the trade exhibits this year a decrease of Rs. 1,87,479. This trade represents, as mentioned in previous reports, the produce of the districts above the ghâts as well as of those below them exported from coast ports to Bombay and other places, and the interportal distribution thereof for local consumption. It is interfered with to a very large extent by the Southern Marátha and the West of India Portuguese Railways, and is liable to fluctuate according to the crops and the stocks in hand. Myrabolams, turmeric cocoanuts, betelnuts, sugar and fire-wood were this year items of extended transaction, while fish-dried, and ground-nuts have declined. The transactions under rice represent for the mo

part interportal movements for the distribution of Rangoon rice largely imported from Bombay. The decrease under fish, dried, is attributed to a bad fishing season, and that under ground-nuts to a deficient crop. The poorer classes in the district were deprived of their usual employments on account of famine, and busied themselves in collecting firewood, which accounts for the larger transactions under that head. The remittances of treasure were necessarily larger in a year of scarcity and famine when rice and other food-stuffs had to be imported from Bombay in increased quantities.

The value of the interportal export trade of the *Uran* Range amounted to Rs. 90,05,954 against Rs. 94,32,443 in 1898-99, showing a falling off of Rs. 4,26,489. The principal items were—

	1898-99.	1899-1900.
	Rs.	Rs.

Salt	26,56,169	23,38,279
Fire-wood	99,674	1,20,599

The restricted trade under rice and paddy, spirits and salt is attributed to the scarcity and famine, and fodder (which includes hay) was exported in larger quantities to Bombay, where there was a demand for it on the same account. The increase under fire-wood is attributed to the operations of the Forest Department, the cuttings this year having been larger.

The value of the trade of the ports in the *Thána* Range amounted to Rs. 43,24,965 against Rs. 51,05,831, showing a falling off of Rs. 7,80,866. The principal items were—

	1898-99.	1899-1900.
	Rs.	Rs.
Bricks and Tiles	1,73,362	1,68,932

Teak	1,29,974	1,08,594
Fire-wood	3,50,374	3,86,828
Manufactures	62,333	55,353

The decrease in the trade is almost entirely accounted for by the diminished transactions under rice and paddy. Cotton-seed declined owing to the failure of the crops and the stimulated local demand, the seed being used as an article of food for cattle. Fodder shows an increase here as in other districts, as it includes hay forwarded in larger quantities to Gujarát. The other trade has not varied much.

The export trade of the ports in the *Surat* Range amounted this year to Rs. 18,72,269 against Rs. 33,32,727 in 1898-99, showing the very large falling off of Rs. 14,60,458. The principal items were—

	1898-99.	1899-1900.
	Rs.	Rs.
Animals, Living	15,497	1,05,255

Wood—		
Teak and other Timber	40,221	25,617
Fire-wood	64,649	78,318

The decrease under cotton (raw), grain and pulse, mowra-flowers and oil-seeds is ascribed to deficient crops, while cotton twist and yarn were exported in smaller quantities, partly on account of the failure of the cotton crop and partly owing to the mills at Surat being closed during the greater part of the year. There was but little activity in house-building operations in a year of plague and famine, and this accounts for the smaller trade in teakwood. The item of animals, living, includes value of cattle brought from Káthiáwár and Ahmedabad, *vid* Gogo, to Surat to be removed to the Songad forests and other places where water and pasture could be found, and that of manures includes animal bones, the exports of which were larger on account of the great mortality among cattle. The exports of fodder were only slightly larger, as the local supply was very scanty.

As mentioned in previous reports, this trade represents merchandise forwarded to Goa partly for local consumption and partly for transmission to the adjoining districts served by the railway. The increase this year is chiefly due to larger shipments of rice and paddy forwarded from Vengurla and Málvan, much of it being Rangoon rice imported from Bombay. Kerosine oil too was forwarded in larger quantities from Vengurla from stocks received from Bombay, while the larger trade in Cutch is attributed to a rise of prices in the districts up-country which are supplied from the ports in the Kárwár Range *vid* Marmagao.

Daman.—The trade at this place is very small.

Diu.—This too is a comparatively small trade. The decrease this year is chiefly attributable to restricted shipments of rice and wheat.

Foreign Konkan (Janjira).—The value of this trade amounted to Rs. 1,00,283 against Rs. 92,717 in 1898-99, showing an improvement of Rs. 7,566. The figures were—

	1898-99.	1899-1900.
	Rs.	Rs.
Tobacco—		
Unmanufactured	18,702	12,472
Grain and Pulse (chiefly Rice)	2,319	10,186
Salt	24,600	36,078
Sugar—		
Unrefined	18,795	17,147

This trade represents transactions of the Janjira State with the adjoining ports in British territory. The salt is supplied under the terms of an agreement with the British Government. It was forwarded this year from the salt-works in the Uran District.

Cochin and Travancore.—As stated in former reports, this trade represents salt exported from the salt-works at Uran and other districts. This year, however, a few articles of furniture, cigars and other sundries of the aggregate value of Rs. 2,000 are comprised in the exports.

Cutch.—This trade was valued at Rs. 7,22,960 against Rs. 8,13,192 in 1898-99, showing a falling off of Rs. 90,232. The principal items were —

	1898-99.	1899-1900.
	Rs.	Rs.
Fodder	...	59,103
Grain and Pulse (chiefly Jawári and Bájri) ...	17,793	21,936

Sugar—		
Unrefined	7,07,002	4,72,387
Wood—		
Teak and other Timber	27,762	12,263

Sugar, by far the largest item of the trade, shows a considerable falling off, attributable to the deficient crops of sugar-cane in the districts above the ghâts. The increase under fodder (chiefly hay) and under cotton-seed, also an article of cattle-food, occurs in the trade with almost all the provinces in and around Gujarát, while the mortality among cattle created a demand for ghi which was met from the Ratnágiri District from accumulations in stock.

Káthiáwár.—The exports to this province were valued at Rs. 20,70,612 against Rs. 25,36,327 1898-99, showing a decrease of Rs. 4,65,715. The principal items were—

	1898-99.	1899-1900.
	Rs.	Rs.
Canes and Ratans (Bamboos) ...	69,576	40,700
Cotton (Raw)	1,14,484	60,131

Grain and Pulse (chiefly Jowári and Bájri, Pulse and Rice).	10,90,113	5,16,484
Cotton-seed	3,34,830	3,03,519
Sugar—		
Unrefined	4,24,697	3,46,449
Wood—		
Teak and other Timber	1,82,327	1,16,185

There was in this trade a falling off under almost all the principal items of export, that under grain and pulse being the most conspicuous. The depression of the trade generally is due to the scarcity and famine prevalent in the districts of the Presidency, from which Káthiáwár draws its supplies Fodder is the only exception and the trade in this was larger.

Gáikwár's Ports.—These exports were valued at Rs. 1,07,477 against Rs. 94,421 in 1898-99, showing an improvement of Rs. 13,056. The principal items were—

	1898-99.	1899-1900.
	Rs.	Rs.
Fodder	360	7,554
Grain and Pulse	23,230	32,465
Mowra-flowers	6,244	1,300
Cotton-seed	5,122	12,589
Sugar—		
Unrefined	14,938	17,484
Teakwood	32,295	20,225

The explanations for the fluctuations need not be repeated. The trade is subject to the competition of the B. B. & C. I. Railway.

Cambay.—The exports to this port were valued at Rs. 1,98,509 against Rs. 1,20,597 in 1898-99, showing an improvement of Rs. 77,912. The chief items of the trade were—

	1898-99.	1899-1900.
	Rs.	Rs.
Canes and Ratans (Bamboos) ...	9,235	4,857
Fodder	93	47,375

Sugar—		
Unrefined	38,871	29,995
Teakwood	32,657	19,384

The trade with this province presents the same features as those of the other provinces in Gujarát.
